
The fundamental themes of change, globalization, diversity, technology, and ethics are embedded in the cohesive case analysis at the conclusion of each part of the textbook. Students become familiar with one organizational culture and build on the analysis from previous studies.

Students will utilize the concepts contained in the text readings as well as data from the Info Trac online research database to complete the analysis of each case contained in Part I, Part II, and Part III. The written analysis should be three—five pages in length and utilize APA manuscript format. All references must be cited in a separate bibliography page.

Each team will present its findings using PowerPoint presentation software. Teams will submit the manuscript and PowerPoint slides.
