Prepare to be a business-savvy administrator in the healthcare industry.

THE RIVIER UNIVERSITY ADVANTAGE

Rivier’s Master of Business Administration (MBA) in Healthcare Administration degree delivers proficiency in managing core business functions with an emphasis on developing, planning, and managing healthcare operations and services within healthcare facilities and across healthcare systems. The program offers students the opportunity to learn the operational side of managing a healthcare facility, whether it is a small office, a clinic, or a large hospital. The program stresses the importance of critical thinking skills to analyze situations, comparing and contrasting the opportunities provided by technology for the organization, utilizing effective communication techniques, and evaluating situations that present potential legal and ethical issues and developing solutions for those issues.

Rivier’s classes are offered online and in a hybrid format. Online classes maintain the same high quality as our face-to-face courses with the added benefit of 24-7 flexibility to fit your schedule. Small classes mean that our MBA faculty know you and understand your goals. They will serve as mentors to help you succeed academically and advance professionally.

Rivier’s MBA program develops well-rounded professionals who understand finance, economics, marketing, quality control, ethics, organizational behavior, and strategic decision making.

ACCESS THE WORLD

With a focus on applied learning, students learn how to apply business theories to current events – especially on the global stage. Our MBA graduates leave Rivier prepared to serve as the business leaders and professionals around the world. The MBA in Healthcare Administration includes not only core business courses, but healthcare-related courses to prepare students to be business-savvy administrators in the healthcare industry.
