Bachelor of Science in Business Management

Prepare to be a leader in today’s global arena.

THE RIVIER UNIVERSITY ADVANTAGE
Rivier’s Business Management program prepares you to excel in a global business environment as a leader and innovator. You will learn skills in communication, team building, legal, and ethical issues, and become adept at facing the many challenges presented in today’s global arena.

At Rivier, academic excellence is offered and great achievement is expected. You will transform yourself through engaging classroom interaction, powerful study abroad experiences, challenging internships and life-changing community service. Our mission—transforming hearts and minds to serve the world—ensures that you will find a rich global experience in our vibrant campus community. Faculty members bring real-world experience to their classrooms and are dedicated to the success of every student.

ABOUT THE PROGRAM
From entrepreneurship, to diversifying, to innovation and globalization, to starting a new company, business leaders require the foundations of running and managing an organization. The Bachelor of Science in Business Management program instills in students the importance of critical thinking and sound rational judgments that includes applying, evaluating, and synthesizing real-world situations.

ACCESS THE WORLD
Internships, study abroad, and co-curricular opportunities
All Rivier business students have the opportunity to gain work experience through the many internship opportunities the University has to offer—such as sales, financial planning, retail, and marketing internships at a number of reputable local companies, which vary each semester.

Students also have the opportunity to become a member of the Rivier University Business Club. The club is led and managed by students, and a business faculty member serves as an advisor who provides guidance and advice for the club. Some examples of Business Club activities include planning and conducting events with local and regional firms and organizations, and taking field trips to different types of financial institutions, manufacturing plants, and other locations.

Students are strongly encouraged to participate in various study abroad opportunities ranging from faculty-led week-long study tours to entire semesters spent at a university abroad.
