TEAS V

The Test of Essential Academic Skills (TEAS®) is a national standardized test that provides assessment data regarding a student’s overall academic preparedness for nursing-related content. The Assessment measures basic essential skills in the academic content area domains of reading, mathematics, science and English and language usage. The test is intended for use with adult nursing program applicant populations. The objectives assessed on TEAS® V are those which nurse educators deemed most appropriate and relevant to measure entry level academic readiness of nursing program applicants.

The Assessment is four-option multiple-choice, and students have a total time of 209 minutes to complete all four Sections.

- Reading = 58 minutes
- Mathematics = 51 minutes
- Science = 66 minutes
- English = 34 minutes

The Reading subtest covers paragraph comprehension, passage comprehension, inferences and conclusions. The Math subtest covers whole numbers, metric conversion, fractions and decimals, algebraic equations, percentages and ratio/proportion. The English subtest measures knowledge of punctuation, grammar, sentence structure, words and spelling. The Science portion of the test covers scientific reasoning, human body science, life science, earth and physical science, and general science knowledge.

In order to progress in the admissions process applicants must achieve a score of “Proficient” or higher.
