

Rivier University

Employment Promise Program

The **Employment Promise Program** enhances the career preparation and employability of students in all academic disciplines. The program includes mentorship through Rivier's Office of Career & Life Success (CLS), career investment goals, and a specialized, academic and professional development plan that incorporates experiences proven to increase overall academic employability and success in the job search process.

The framework is structured around academic, leadership, professional development, and service experiences, which are woven throughout the students' time at River. In the program, students focus on a progression from each level: Discover, Design, Shape, and Own.

Career investment goals include graduation with a bachelor's degree with a minimum of 3.0 cumulative GPA; involvement in leadership, community service, and internship experiences; and participation in career counseling and professional development opportunities.
