# Nursing (ASN)

## Continue to earn while you learn. Become a Registered Nurse.

Looking for a career that is both rewarding and exciting? A career that offers you opportunities for advancement, job security and mobility? Become a registered nurse, and you'll enjoy all this and more.

Rivier's ASN degree prepares you to move directly into beginning nursing positions in hospitals and other acute-care facilities, extended-care facilities, and other structured healthcare settings. Designed for high school graduates and career-changers who have earned a bachelor's degree in another discipline, the ASN program provides the academic preparation necessary to take National Council Licensure Examination (NCLEX) and become a registered nurse.

### LPN to ASN Option

Licensed Practical Nurses (LPNs) can receive advanced standing in the degree program. Advanced standing reduces the number of courses you need to complete at the University, enabling you to finish your degree in less time and at a lower cost. In addition to expanded care and job opportunities, the median annual salary for registered nurses is \$26,000 more than LPNs.

### Choose Rivier

Rivier's nursing education provides strong foundational knowledge, and our state-of-the-art Simulation Labs provide experience that strengthens clinical nursing practice. The program provides extensive, hands-on clinical experience to build your skill sets and confidence. Graduates of Rivier's ASN program who sat for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) from 2020-23 had a pass rate of 85.40% for first-time test takers, above the national average pass rate of 84.38%.
