

Master of Business Administration (MBA)

Information Technology Management (STEM)

Level up your business and technology skills.

Take your career to the next level. Rivier MBAs deliver real-world skills for personal and professional success.

Rivier's MBA in Information Technology Management (ITM) STEM program blends powerful business strategies with real-world tech skills needed to lead in today's digital world. You'll explore networking, databases, data mining, etc., to learn how to manage complex information and turn data into insights that drive innovation. You'll discuss real-world challenges and collaborate with forward-thinking peers who will enable you to lead IT projects that truly make a meaningful impact.

Whether you're climbing the corporate ladder or launching your own tech venture, this MBA helps you turn your passion for technology into powerful leadership.

Choose Rivier

On-campus and online course options provide greater flexibility for working students, and six seven-week terms annually offer a swift path to earning your degree within 1-2 years. Additionally, Rivier's curriculum utilizes the most current open education resources in place of textbooks, significantly reducing the cost of your program.

Save with Open Educational Resources

Most instructors in the online MBA in Information Technology Management program use Open Educational Resources (OER) in place of traditional textbooks. This means digital, openly licensed content is available free of charge to students. Featuring multimedia, interactive, and engaging course content, OER materials can save you an estimated \$1,500 over the length of your program.

MBA Concentrations

With concentrations in five in-demand fields, an MBA from Rivier equips you with the tools and expertise needed to stand out in today's competitive business environment. Explore our other specialized MBA concentrations:
