

Bachelor of Science

Nursing (RN to BSN)

Earn your BSN credential and advance the quality of your nursing care.

Achieve better patient outcomes and satisfaction, as well as increased opportunities for advancement, job security and mobility.

As a BSN-prepared nurse, you'll enjoy a broader scope of practice and develop the skills to help save more lives. In being better prepared to serve patients, you'll benefit from the potential for better jobs with better salaries.

Rivier's flexible and convenient online program allows you to continue working while you pursue your degree. You can immediately apply what you learn and advance the quality of care you provide to patients each day.

With your BSN credential, you will be prepared for leadership positions and graduate programs in nursing, healthcare administration, and related fields.

Credit for Prior Learning

When you apply with an active RN license, the University will transfer and apply your associate degree (or diploma) credits toward the BSN credit requirement. This transfer of credits enables you to complete your bachelor's degree more quickly.

Choose Rivier

Rivier's nursing education programs provide strong foundational knowledge and hands-on learning that build on your existing skill sets and confidence in care. Our generous transfer credit policy and six seven-week terms annually offer a swift path to earning your BSN.
