Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2018-19. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)

Number of clock hours of supervised clinical experience required prior to student teaching

150

Number of clock hours required for student teaching

450

Are there programs in which candidates are the teacher of record?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom

Number of years required for teaching as the teacher of record in a classroom

All Programs

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

1

[Optional tool](#) for automatically calculating full-time equivalent faculty in the system

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

3

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

44

Number of students in supervised clinical experience during this academic year

39

Please provide any additional information about or descriptions of the supervised clinical experiences:

At the undergraduate level we have eight courses that are pre-service supervised field experiences for a total of 200 hours. At the graduate level we have four to five courses depending on program that are pre-service field experiences for a total of 100-125 hours. One course meets the student teaching requirement.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

No Race/Ethnicity Reported	10	5

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

(1) The Certification Officer serves on the Council of Teacher Education for the State and other faculty serve on the Institution for Higher Education Network. The Program Director in Education has established relationships with senior administrators in schools and districts. The knowledge and networking with these groups outside the institution help faculty and administrators to understand the needs of New Hampshire's public, private, charter, and parochial schools. Teacher education programs will continue to be reviewed, revised, and added based on need. Disciplinary content in elementary, early childhood, and special education programs has been integrated to provide more in-depth coverage of discipline specific content in the preparation of highly qualified teachers as well as the opportunity for expanded field experience and student teaching. Rivier University is consistently reviewing graduate and undergraduate teacher preparation programs to ensure that curricula in all programs reflect current research, recent NH DOE standards revisions, advancements in instructional technology, and are well-matched to classroom and student diversity. To this end we are engaged in dialogue with the Commissioner of Education, the State Board of Education, superintendents, NH DOE representatives, professionals in the field, and

colleagues from other institutions to exchange information and examine multiple models of teacher preparation and field experience. We have instituted an Education Advisory Council with a membership of 24 to expand our network and communication with educators and schools. We have implemented an electronic portfolio, a field experience management system for streamlining, enhancing, managing and documenting student growth in college courses and in the field. (2) Benchmark Assessment system to measure candidate and program effectiveness. (3) Adjunct faculty members include current and former school administrators, teachers, school psychologists and school counselors. Student teachers work with an experienced cooperating teacher in the field who holds certification in the same area as the student teacher who seeks certification. The teachers in the field help to keep our student teachers aware of the issues and needs of students, teachers, and schools where they may be employed. (4) New Hampshire is facing the challenge of educating an increasingly diverse population. We are focused on understanding the additional developments and trends in literacy education including the increasing number of non-native English speakers and children in poverty. Our commitment is to give teacher candidates a variety of field experiences and student teaching in diverse school settings.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. Assessment Pass Rates

THIS PAGE INCLUDES:

>> [Assessment Pass Rates](#)

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

New England Commission of Higher Education (NECHE)

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

1. Teacher candidates use Canvas, a learning management system for a majority of their coursework, assignments, and instructional resources. Digital library databases are employed as course resources. Teacher candidates use Live Text to create and manage their ePortfolios as well as Field Experience time logs and assessments. The use of Live Text allows for real time coordination of feedback between instructors and cooperating teachers. 2. Teacher candidates take courses that embed the use of technology in the classroom into the teaching and learning process. Teacher candidates explore animation, visual literacy, and multimedia concepts while working in collaborative teams developing blogs, digital stories and other integrated multimedia projects. Teacher candidates conduct analysis of the role of technology in the curriculum, and the impact of technology tools, teaching and learning issues and activities: effective searching, website validation, internet research, plagiarism searches, internet activities, internet field trips, online collaborative projects and productivity tools for teachers. The Educational Resource Center and Regina Library has a number of technology tools available to teacher candidates to integrate technology into classroom instruction. 3. Our curriculum development courses allow teacher candidates to investigate, identify, and use appropriate methodologies to assess the effectiveness of curriculum by reviewing and analyzing student performance data. 4. Our Benchmark Assessment system uses the institution's Learning Management System (LMS), MS Excel, and SPSS to collect and analyze data for continuous improvement. Candidate and program assessment data is systematically collected and analyzed.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Teacher candidates complete a teaching/learning eportfolio to demonstrate their competence in teaching students with disabilities, participating in collaborative teams, and teaching students with limited English proficiency.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Teacher candidates participate in experiential learning at their field experience sites in which team collaboration of practice is modeled. They have the opportunity to witness how their scaffolded experience progresses and actively participate in collaborative work with their cooperating practitioners. This practical coursework provides students with opportunities to demonstrate professional responsibility through benchmark assignments like case studies; professional interviews with practitioners, who are part of the collaborative efforts that benefit students; and preparation of in-depth resource materials important to the collaborative team model, like the description of the learning progressions of K-12 students based on assessment data.

c. Effectively teach students who are limited English proficient.

Methods courses require lesson plans that demonstrate modification and adaptation to teach students who are limited in English proficiency. Courses are designed to develop the knowledge, skills and dispositions to teach students who are limited in English proficiency by modifying and adapting teaching strategies to differentiate instruction. Teacher candidates complete a teaching/learning eportfolio to demonstrate their competence in teaching students with disabilities, participating in collaborative teams, and teaching students with limited English proficiency.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

Teacher candidates engage in coursework and field experiences that prepare them to teach students with disabilities effectively, participate as a member of individualized education program teams and to teach students who are limited English proficient effectively.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.
