Staff Pick of the Month

Tina Cheshire, Circulation Assistant

The Paris Apartment by Lucy Foley

I received this book as a gift and tossed it on my ever growing "to be read" pile with great anticipation all the way back in May. After a few mediocre reads, I decided to see what all the hype was about surrounding Lucy Foley and her thriller/suspense "masterpieces." I'm so glad I did! Having just arrived in Paris to meet her brother, the main character, Jess, is on a mad hunt to find him after he goes missing. What she uncovers in this new city leaves her, and the reader, reeling until the very end. With plot twists and subplots galore, Jess doesn't know who's lying, who's telling the truth, and who is really who they say they are! Foley proves herself to be a master of suspense, and you know you've just finished an amazing book when you audibly utter "wow" as you stare into the middle distance with a grin on your face, shaking your head and slowly closing the book. Wow, is right! What a home run this book turned out to be. Slow to start, but intriguing from the beginning, I found myself deliciously confused and it took me until page 328 to figure out what was truly going on! I absolutely loved it. Add Lucy Foley to the list of authors I will immediately snatch up from here on out! Triumphant. Spine tingling. Shocking and utterly suspenseful. The plot twists will absolutely floor you!

Meet a Library Supporter

Emily Daversa, Director of Campus Ministry

What is your favorite library program/service?

I love the pop-up libraries that the library staff run at various campus events, and the themed displays each month! It makes it easy to discover new books that I may not have known about or chosen otherwise. For example, one of my favorite books is one I checked out from the “Blind Date With a Book” display!

What is one thing you would like people to know about Regina Library/ERC?

The staff are so friendly and helpful – don’t be afraid to ask them questions! Also, you can check out more than just books. The library has a limited number of laptops, HDMI cables, and other technology available to check out for short periods of time.

If you could only have three apps on your phone, which would you pick?

Facetime, Pinterest, and Podcasts (or Spotify).

What do you do for fun?

I love to knit and crochet. I’m working on knitting a sweater right now! I’m also a big fan of listening to podcasts and music, baking, and being outside.
