

MISSION STATEMENT

Established through a Department of Justice grant, the CARE Program is a multi-disciplinary team of campus and community partners working together to reduce gender-based violence on campus. The CARE Program supports Rivier University's mission of respect for all people by addressing domestic violence, dating violence, sexual assault, and stalking through awareness, education, prevention, and trauma-informed services, as well as holding perpetrators accountable for their actions.

A Culture of Respect

A Guide to Understanding Gender-based Violence on Campus

Campus Awareness for Raiders to End Issues of Sexual Assault, Domestic Violence, Dating Violence & Stalking

Words to Know

SEXUAL ASSAULT is defined as having or attempting to have sexual intercourse with another individual by use of force and/or threat of force, without effective consent, and if/when the individual is incapacitated or physically and/or mentally unable to make informed and reasonable judgments.

STALKING occurs when a person engages in a course of conduct or repeatedly commits acts towards another person under circumstances that would place the person in reasonable fear for safety or of harm or bodily injury to self or to others, or reasonably cause substantial emotional distress to the person.

INTIMATE PARTNER VIOLENCE refers to dating violence, domestic violence, or relationship violence. Intimate partner violence includes any act of violence or threatened act of violence against a person who is in or has been involved in a sexual, dating, and or other intimate relationship with the other person.

CONSENT is an active, conscious, and voluntary decision by each participant to engage in mutually agreed-upon sexual activity.

BYSTANDER INTERVENTION is a violence prevention strategy used by individuals to intervene/ interrupt/distract a potentially harmful situation, including stopping actions and/or comments that promote sexual violence.

What to do if you have experienced sexual *or* relationship violence

Go to a hospital or medical provider ASAP

Especially if a sexual assault took place. This is the best option in order to provide and ensure physical safety, emotional support, and medical care.

TAKE CARE OF YOURSELF

- Get support from friends & family. Advocates and counselors are also available if friends and family are not.
- Use stress reduction techniques, like exercise, yoga, listen to music, and prayer/meditation.
- Maintain a balanced diet and be sure to get enough sleep.
- Consider keeping a journal as a way to express your thoughts and feelings.

WHAT YOU CAN DO

- Step up and say something if you see something you know is wrong.
- End victim blaming.
- Hold friends and yourself accountable for the actions and in-actions regarding gender-based violence.
