

Dear New Student:

I would like to welcome you to the Rivier University community on behalf of Sr. Mary Anne Quibin Student Health Services. We are located on the first floor of Guild Hall.

Our philosophy is based on our commitment to serving the whole individual: physical, psychological, and spiritual. We hope to be your partner in health while you are a resident student at Rivier University. It is also our goal to share health and wellness information that will help you throughout and beyond your college years.

Enclosed are copies of required health forms. Please note that many of these forms must be signed by a health care provider, the immunization verification form, and the physical exam form.

If you have had a physical exam within one year of entering Rivier University, we will accept that as a current physical. In addition, it is imperative that we receive all of your immunization records. Please refer to the immunization policy for the list of immunizations we require at Rivier University.

All students (both resident and commuter) need to complete and return the Immunization Verification form, which must be signed by your health care provider.

The Immunization Verification Form is the only health form required of commuter students. There are additional forms that are required of resident students only. These are:

- Health History form (completed by each student).
- Physical Exam form (completed by your primary care provider OR a copy of your most recent physical may be uploaded on the Student Health Portal. * ATHLETES must have permission for full participation in sports.
- Permission to Treat form
- Health Insurance Form and a copy of your insurance card
- Patient Bill of Rights Form.

If you are a nursing student, you must submit the above required documents to Quibin Student Health Services.

These are separate from the health records required by the Division of Nursing. If you are an athlete, you must ALSO submit a copy of your Physical Exam and Immunization verification to the Department of Athletics as well.

Quibin Student Health Services provides comprehensive education and referral on a variety of college health issues. Our nurse practitioners on staff diagnose and treat common medical conditions such as: strep throat, respiratory illnesses, and urinary tract infections. We can also assist you with management of chronic illnesses like asthma or diabetes. Please see us if you need first aid supplies—ace wraps, instant ice packs, bandages, antibiotic ointment, etc.

Please note that all required health forms must be received at our office prior to you moving on to campus, as they are required by state law. Forms are uploaded to the Student Health Portal (link found off the university web page or <https://rivier.mediatconnect.com/>). We look forward to meeting you, and to helping you as you journey throughout your college years. Again, welcome to Rivier University!

Submission deadline: August 15 (Fall Admittance) or January 15 (Spring Admittance) Quibin Student Health Services, Guild Hall, Rivier University, 420 South Main St., Nashua, NH 03060-5086 Phone: (603) 897-8295 • Fax: (603) 897-8806 • healthservices@rivier.edu
