## University Mission/History

### The Mission of Rivier University

Founded in 1933 by the Sisters of the Presentation of Mary, Rivier University is a Catholic institution dedicated to transforming hearts and minds to serve the world.

As a co-educational institution of higher learning, the University is dedicated to the education of undergraduate and graduate students in both the liberal arts and professional courses of study.

Committed to the faith heritage, intellectual tradition, and social teachings of the Roman Catholic Church, the University educates the whole person in the context of an academic community that cultivates critical thought, sound judgment, and respect for all people. This community supports the intellectual growth of all its members while offering them opportunities for social, cultural,

moral, and spiritual development. The challenge to the University community is to search for truth through the dialogue between faith and reason.

Rivier creates an environment in which integrated learning is the shared responsibility of students, faculty, staff, and administrators, and is pursued in all the curricular and co-curricular programs of the University. To participate in the life of Rivier University is to strive for academic excellence, to take responsibility for ourselves and for others, and to engage in dialogue about basic human issues facing society, especially the plight of the poor and powerless. The University extends to all of its members and also to the greater community an invitation to join in intellectual inquiry and dialogue.

## **History of the University**

Rivier University is named in honor of Blessed Anne Marie Rivier, Founder of the Sisters of the Presentation of Mary. Established in 1933 in Hudson, New Hampshire, Rivier moved in 1941 to the present campus site in Nashua and officially became Rivier University on July 1, 2012. The University was incorporated in 1935 under the laws of the State of New Hampshire, and through two separate charters was invested with the power to confer both graduate and undergraduate degrees. Rivier is a fully accredited institution enrolling more than 2,500 students in two schools: The School of Undergraduate Studies (which includes the Professional Studies Division) and the School of Graduate Studies.

For the purpose of institutional cooperation, Rivier University is a member of the New Hampshire College and University Council, a consortium of institutions of higher learning; students of member institutions are permitted to register for transfer credit at any of the member institutions except Dartmouth College.

In 1995, in anticipation of the 1996 bicentennial of the founding of the Sisters of the Presentation of Mary, the University formally recommitted to Anne Marie Rivier's mission of teaching and serving the poor by making social justice and service to others a special focus of its work.

As the oldest institution of higher learning in Nashua, Rivier is recognized for the development of programs which serve the needs of both traditional and nontraditional age individuals and remains faithful to its original mission: the education of the whole person.

## **Traditions and Customs**

The University enjoys many long-standing traditions each year. It is hoped that members of the community will support these customs to ensure they continue for years to come.

### **Heritage Day**

The community celebrates the heritage of the University and the congregation which founded it. More specifically, we honor Blessed Anne-Marie Rivier, the founder of the Sisters of the Presentation of Mary after whom the University is named.

### **Academic Convocation**

Convocation is an academic assembly which affirms the values of the academic community and introduces them to Rivier University's new students.

### **Mass of the Holy Spirit**

Mass of the Holy Spirit is a Catholic liturgy during which the Rivier University community asks for God's blessing for a successful academic year.

### **Presentation of Mary Day**

On November 21, the Sisters of the Presentation of Mary celebrate a special feast day. This day marks the founding of the Order in 1796. Students join the Sisters of the Presentation of Mary for a special mass and celebration.

## Commencement Activities

### Baccalaureate Mass and Hooding

The Rivier community celebrates graduation in the Catholic tradition with a Baccalaureate Mass held the evening prior to Commencement. As part of our celebration, all seniors adorned in traditional academic regalia are hooded by members of the faculty. The University honors graduating seniors who have attained a 3.5 GPA or higher at the end of the Fall semester with an Honors Cord.

### Pinning

To recognize associate of science degrees in the Division of Nursing, all students who have successfully completed AS nursing classes receive the Nursing Pin from members of their faculty. The education division holds a pinning ceremony for the undergraduate student teachers at the end of spring semester.

### Commencement

All students who complete degree requirements are invited to join the faculty and administration at the University's annual Commencement Ceremony. The program includes a traditional commencement address, student speakers and musical interludes; it culminates in the awarding of diplomas from Rivier University that signify the completion of higher education in one's major field of study.

## Academic Resources

### The New Hampshire College and University Council (NHCUC)

For the purpose of institutional cooperation, Rivier University is a member of the New Hampshire College and University Council, a consortium of 12 New Hampshire institutions of higher learning: Colby Sawyer College, Dartmouth College, Franklin Pierce University, Granite State College, Keene State College, New England College, Plymouth State University, Rivier University, St. Anselm College, Southern New Hampshire University and University of New Hampshire. Students of member institutions are permitted to register for transfer credit at any of the member colleges, except Dartmouth College.

### Regina Library

The Regina Library and the Cho Educational Resource Center are the resource libraries for students, faculty, and staff. The library staff, in collaboration with the University faculty, serves the research needs of the community. To meet a diversified curriculum and the academic requirements of the Rivier University community, the libraries currently have approximately 95,000 volumes, subscribe to roughly 330 journal titles (of which about 160 are electronic), and patrons have online access through the library website to over 45,000 electronic books and approximately 75 online research databases (which provide access to over 20,000 electronic journals). A reference librarian is available at the library for almost all the hours the library is open. Students needing reference assistance may also contact a reference librarian from off-campus by telephone, text, email, or chat online.

Interlibrary loan (ILL) services are provided for students and faculty to obtain materials for research that are not available through the library collection and databases. Patrons can track, review and retrieve their ILL requests through the RivILL portal, which is accessible through the Regina Library website. Books are delivered to the library for patrons to pick up.

Thanks to a major capital gift, Rivier expanded the Regina Library in 2008 by approximately 12,000 square feet and renovated the existing library significantly. The highlights of the expansion and renovation include a new Reference Room, Electronic Classroom, Café with seating for 30 guests, a Quiet Study, five Group Study rooms and large open spaces for group collaborative work. Wireless access to the University network is available throughout the building.

### Cho Educational Resource Center

The Cho Educational Resource Center (ERC) is a branch of the Regina Library and is located on the second floor of The Benoit Education Center Building. The ERC houses a unique collection of materials that support curriculum development and lesson planning for students in the majors of education and counseling. These are items that could be found in a typical classroom, such as textbooks, instructional kits, games, and educational software. Additionally, the ERC has a diverse collection of juvenile books, including picture books, easy readers, and non-fiction books. The project room offers a space for students to create cut outs for bulletin board projects, games, or books for classroom use. Students may also submit materials for lamination if they wish. The open main room, tables, and group study room foster an environment of collaboration and discussion among students working on group or individual projects.

## Information Technology

The Office of Information Technology (OIT) provides Rivier University students, faculty, and staff with a data network, computer workstations, and all technology related services. Nowhere is this more apparent than in the Academic Computing Center (ACC) and the Regina Library. Both facilities provide students with access to email, word processing, spreadsheet, database, presentation, imaging, programming, and the Internet. Managed by the OIT, the ACC is open every day during the academic year and on a limited basis during the summer to fulfill the computing needs of the community. In addition, IT Support, located in Sylvia Trottier Hall the Office of Information Technology suite on the 2<sup>nd</sup> floor, offers students, faculty, and staff a wide range of academic and professional services. If you have a problem with any aspect of technology while on campus, please contact IT Support immediately at [itsupport@rivier.edu](mailto:itsupport@rivier.edu) or (603) 897-8469.

### Help Desk

In an effort to provide the best possible technical support to Rivier University, we provide 24x7 Help Desk Support. If you are on campus call ext. 8469 or off campus 844-505-8076. The Help Desk offers faculty, staff, and students access to a technician 24 hours a day, 7 days a week. These technicians can provide support on most of the technology-based functions provided by Rivier University. The Help Desk Technicians are specially trained to work with Rivier University technology needs.

### Full Internet Access

Rivier University is connected to the Internet via a direct Ethernet connection. At 500 megabits per second, this high speed data link provides fast web access for research, recreation, and staying connected with the world. Access to the Internet is provided throughout the campus by means of our wireless network. OIT recommends the use of Microsoft Internet Explorer for its integrated security features and its compatibility with our web-based email client – Office 365.

### RivNet Account

You must sign up for a Rivier University Computer Account. This account will provide you with access to a wide variety of services necessary to pursue your academic career. To establish a computer account, please go to [www.rivier.edu/it](http://www.rivier.edu/it) and select “Online Computer Account Request.”

When you obtain your network user account, you will also gain access to our learning management system—Canvas, the student portal, MyRiv, and a Rivier email account. ALL campus information and communication will be conducted through this account including grades, course schedules, faculty communication, and University notifications. Grade reports and course schedules are no longer mailed out. Students are expected to utilize the student portal, MyRiv, for this information. If you have any questions or concerns contact IT at 897-8469 or [ITsupport@rivier.edu](mailto:ITsupport@rivier.edu).

### Email Services/Official University Communications

Your email address will follow the format of [username@rivier.edu](mailto:username@rivier.edu), and is most easily accessible by browsing to our Office 365 at the [email](mailto:email@rivier.edu) link on top of the main website <https://www.rivier.edu/>. You can use this email account to communicate with your professors and various offices at the University and it is the official means by which Rivier University will communicate with you! Since it is available to you 24/7, anywhere in the world, we encourage you to use it for all your email needs.

### Personal Drive Space

As of September 2017, all students have access to Microsoft’s OneDrive through their Office 365 account. This means that students need not carry USB drives from location to location, or risk theft or loss of information. Simply save your documents to your OneDrive and they will always be accessible from any device connected to the Internet.

### Canvas

Canvas is Rivier University’s online Learning Management System (LMS). It is accessible on any computer with an Internet connection, both on and off campus. Instructors use this tool for posting course documents, activities, and discussions. Organizations and departments also use Canvas to post announcements and distribute information. To access Canvas, navigate to the Rivier University website and click the Canvas link on the top of the page. Login with your network username and password and you will have access to all your courses that use Canvas. Tutorials and support are available within Canvas. If you have any questions or concerns, please contact Chris Parent at (603) 897-8621.

### Residence Hall Network Access

The OIT provides direct Internet access to the residence hall rooms so that students can use their own computers and other devices to access the Internet. Both wired and wireless connections are available. *Note:* Rivier University manages all Internet traffic coming to and from the University to ensure that our Internet service supports the educational mission of the University. The University does not block any types of Internet traffic or activity; however, Internet traffic that cannot be identified is given a low priority and a limited amount of capacity. There is often significant competition for the space in this “unidentified” traffic category, which can potentially result in slow response times and connection difficulties.

### Online Gaming

Online gaming is not prohibited or blocked in campus residence halls, but it is not considered high-priority Internet traffic. Gaming network traffic competes with other types of Internet traffic, and as such, the user may find that performance can vary from acceptable to slow. Additionally, some gaming sites or services may have difficulty with our firewall settings. If you cannot connect to certain online gaming sites, it may be because your traffic is competing with other users who are online at the same time. It’s also possible that interference from other wireless devices is degrading performance. Rivier University does not guarantee access to online gaming services or to any other Internet site. If you have a problem, please contact IT Support at [itsupport@rivier.edu](mailto:itsupport@rivier.edu) or (603) 897-8469 and we will do what we can to assist.

### MyRiv—Student Portal

MyRiv - Rivier University’s student portal - allows students to have immediate access to the following information: midterm and final grades, course evaluations, course offerings, student’s schedule, student’s bill, unofficial transcript, degree audit, register for classes and important dates.

### Intellectual Property and Copyright Infringement

The use of peer to peer software (P2P) to download songs, movies, games, software, or any other intellectual property without permission of the owner can result in criminal and/or civil liability. In short, it is stealing – taking something that does not belong to you. The recording industry and the motion picture industry in particular use technology to track down those who engage in this type of activity. They are employing aggressive legal strategies that have resulted in severe fines, costly settlements and very expensive verdicts for those who they have pursued. The use of file sharing software on the Rivier University network without specific permission is prohibited. This type of software must be removed from your computer. Please be aware that file sharing software scans your hard drive and can distribute music automatically, even if you think you are not using it. Whether you are aware or not, you are responsible for the activities of your computer on the Rivier University network. If P2P software is discovered on your system, or if the University receives a copyright infringement notice, it will be referred to Student Affairs for appropriate action.

Those using the Rivier University network are expected to use legal commercial sites to download music, movies, and other intellectual property. Please refer to the Rivier University web site for a current list of sites. If you have any questions, please contact IT Support at (603) 897-8469.

Rivier does not presently monitor any social networking website on a routine or daily basis but reserves the right to act on any violations of law or University policy which come to the University’s attention. Photographs and images on the Rivier University website are the property of Rivier University and should not be downloaded and used for personal reasons without the permission of the University. ## Academic & Career Advising

Academic & Career Advising serves as the starting point for undergraduate students as they navigate their individual academic & career plans at Rivier. Academic & Career Advisors are assigned to students by major. Advising takes place in the Career Development Center located on the second floor of the Learning Commons. The Career Development Center is open from 8:30 a.m.-5 p.m. Monday-Friday and the main Advising Office extension is 8227. Throughout the year, Advisors assist students with course registrations, add/drop requests and scheduling changes; guide students through academic/career transitions and, when appropriate, refer students to campus resources; address student and parent academic/career questions and concerns; coordinate the notification process for short or long term absences due to sudden illness and/or sickness; process change of major requests and notify appropriate faculty; discuss University policies and procedures regarding faculty and/or grading disputes when requested; verify Intent to Graduate requests, and assist instructors and faculty regarding excessive absences and missing coursework. Academic & Career Advisors work jointly with faculty, student life, the counseling center, and other campus offices to ensure that each student is given the best possible academic experience while at Rivier University.

The Career Development Center offers resources in addition to Academic & Career Advising to assist students with their career planning efforts, including the pursuit of internships, jobs, and graduate school exploration. Resources such as *RivierConnect* assists students with building their resume, searching for internships and jobs, registering to attend workshops and programs as well as develop their e-portfolio. The CDC website: [www.rivier.edu/cdc](http://www.rivier.edu/cdc) is a comprehensive resource providing students and alumni the opportunity to access vital information related to academic and career success. An annual job fair (held in the spring) is sponsored by the New Hampshire College and University Council, of which Rivier University is a member. Students are encouraged to take advantage of this annual event and all career development services.

## Service Learning

Service learning integrates active, socially significant service into the education experience. It offers students meaningful, community-based, experiential learning by adding human depth to the theories learned in the classroom. At Rivier University, service learning reflects our commitment to action and social justice; and it leads to authentic knowledge and union with God, neighbor, and the community.

Students in the School of Undergraduate Studies are required to earn one credit in service learning prior to graduation. It is recommended that students enroll in a service learning course during their sophomore year.

### Course SL100: Serving the World

All sophomores engage in a 1-credit service experience, building on the First Year Day of Service. Students will reflect on their service experiences in light of the University's mission and their career goals. The class meets four times over a semester. The course includes directed readings, 20 hours of direct service, class discussions, journaling, and a final reflection project. Students can choose from field assignments at over 12 community partner sites. Additionally, students have the option of utilizing an alternative spring break or international service trips as their service placement.

## Disability Services

The Office of Disability Services provides assistance to students with physical, psychological, medical and learning disabilities, in compliance with ADA requirements. Students who experience physical, perceptual, or emotional challenges may require additional supports and accommodations to equalize their opportunities for academic success. Students who have documented disabilities can access support services by contacting the Office of Disability Services (897-8497) at the beginning of each semester. The Office of Disability Services is located on the first floor of The Learning Commons.

## The Writing and Resource Center

The Writing and Resource Center provides individualized academic support to all Rivier University students and is staffed by professional writing consultants, graduate students, and peer tutors. Students seeking help in all stages of their writing for any class may schedule reserved writing appointments, submit papers online, or come to open drop-in hours to work one-on-one with a writing consultant. Students seeking help in understanding course content, preparing for exams, or completing homework may sign up for a group review session, make an appointment with a peer tutor, or come to open peer tutoring drop in hours. The Writing and Resource Center is located on the lower level of the Learning Commons.

## Retention Support Services

Retention of students is an integral part of student services at Rivier University. The Office of Student Success in the Division of Academic Affairs provides several programs to ensure that students obtain the necessary skills and services to help them achieve academic success.

- The Peer Mentoring Program seeks to provide every incoming freshman with an upperclassman mentor who assists them in identifying the appropriate resources on campus to achieve their academic goals. Mentors help guide freshmen through their first year experience, providing friendship, counsel, referrals, and other support for academic, personal and spiritual growth that assist freshmen students in their adjustment to both academic and social challenges.
- The Student Success: Campus to Community course, taken by all freshmen, provides hands-on learning opportunities for developing success in studying, outlining, time management, reading, writing, socializing, cultural competency, global awareness, service learning, and other aspects of college life.
- The Office of Academic Advising provides students with personal advisors who assist students in their course selections, in keeping with their faculty advisor's recommendations, so that students can achieve their educational plans for degree completion. In addition, advisors serve as resources and referrals for other academic and personal support services.
- The Office of Disability Services works to ensure that students with disabilities receive the accommodations and individualized support they need to improve retention and promote academic success.
- The Rivier University Writing and Resource Center (WRC) provides student-centered professional and peer tutoring assistance in courses across the curriculum. The WRC offers one-on-one conferences with professional writing consultants, assistance in understanding subject content in all disciplines with peer tutors, group review sessions, and one-on-one assistance with developing study, time management, test-taking, and note-taking skills.

## Office of the Registrar

### Change of Name or Address

Students should report changes in name, address, or phone number to the Registrar immediately. The Office of the Registrar makes name changes when appropriate supporting documentation accompanies the request: either a copy of a valid driver's license or marriage certificate.

### Directory Information

Rivier University, in compliance with the Family Educational Rights and Privacy Act (FERPA), may release without the student's consent the following directory information: student's name, ID-card picture, telephone number, date of birth, major field of study, class year, dates of attendance, enrollment status, degrees and awards received, (if any) place of employment, most recent previous educational agency or institution attended, and email address. Students are given the opportunity to restrict the release of any or all directory information.

### Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights are:

- (1) The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the Registrar written requests that identify the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- (2) The right to request the amendment of the student's education records that the student believes is inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- (3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is defined as a person employed by the University in an administrative, supervisory, academic, or support staff position (including law enforcement unit and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if

the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:

Family Policy Compliance Office

U.S. Department of Education

400 Maryland Avenue, SW

Washington, DC 20202-4605

### **Grade Reports and Reporting**

At the end of the term, the Office of the Registrar authorizes the posting of grades to the student portal MyRiv for each student. To protect the confidentiality of student records, grades or GPA are never reported over the telephone or by fax. Grades are available to students in the student portal. A class evaluation will appear upon initial access to each course grade. After completing the evaluation, the student may access their grade for the course. Grade reports are no longer mailed out.

### **Transcripts**

**Transcript Request Policy:** Official transcripts may be requested in writing via mail, fax, or in person. Official transcripts must be requested in writing with the student's signature. For your convenience, an online transcript request form is available at [www.rivier.edu](http://www.rivier.edu), MyRiv, or in the Registrar's Office. In your request please include: your name, your name while attending if different, date of birth, social security number, approximate dates of attendance, degree awarded (if applicable), the address where the transcript is to be sent, and your signature. Presentation of a Rivier University ID or a valid driver's license must be made to receive an official copy of a transcript if the student comes in person. For current students, unofficial transcripts can be obtained from the student portal MyRiv. Please select "My Riv" on the Rivier home page, log in, and select "Academic" then "My Transcript" and print out.

Official transcripts will not be released to students who have a financial obligation to the University. Once a transcript request is received, it will be mailed or emailed to the designated address within a 48-hour period.

### **No Faxed Records Policy**

At this time, Rivier University determines that the use of facsimile equipment is not a secure means of transmitting educational records. Because the University cannot safeguard the privacy of the student's records, the University will not fax transcripts, grade reports, or other academic information.

### **Intent to Graduate**

Each candidate must submit a formal notification of intent to graduate to the Office of the Registrar for a degree or certificate to be awarded. Forms for this purpose are available in the Office of the Registrar, from your academic advisor, and from the Rivier website, [www.rivier.edu](http://www.rivier.edu). Rivier University confers degrees three times a year on September 2, January 2, and at the Commencement ceremony in May. The deadlines for filing for graduation are: August 1st for September, December 1st for January, and February 1st for May Commencement.

Students who complete all degree requirements before the May graduation are eligible to participate in the commencement ceremonies. All official transcripts, CLEP scores and challenge exam scores must be submitted to the Office of the Registrar by the application deadlines, otherwise the application will be deferred to the following semester. All financial accounts must be settled in full before degrees are released.

## **Student Affairs Services**

The Division of Student Affairs at Rivier University serves students based on the ideal that learning occurs beyond the classroom. Offices in this division challenge and support students by providing co-curricular and extra-curricular programs and activities that are linked to the University's Roman Catholic tradition and core mission: transforming hearts and minds to serve the world.

By focusing on the education of the whole person, the Division of Student Affairs invites students to enter into experiences that promote growth in faith, development and formation of character, and lifelong learning and service to the community.

Members of the Student Affairs staff encourage responsible decision making, physical and emotional wellness, respect for all

members of the Rivier community and beyond, and appreciation of diversity. This is strengthened through collaboration and cooperation with academic affairs and other campus student services.

## Campus Ministry

The Office of Campus Ministry serves the spiritual, social, and personal needs of the campus community, providing opportunities where values are challenged and faith is affirmed. Rooted in the Roman Catholic tradition, the office invites all members of the community to reflect on our Catholic heritage and mission. Campus Ministry focuses on the areas of faith formation, pastoral care, service, spiritual and personal growth, peace and social justice, and leadership development. Persons of all faiths are welcome to participate in all Campus Ministry activities.

### Liturgy and Sacraments

Mass is celebrated on campus seven days a week. Retreat and prayer experiences are offered throughout the year. Campus Ministry highlights the holy days and special events of the year and ritualizes key moments of transition. Preparation for the sacraments of initiation (Baptism, Eucharist, Confirmation) is available to those who are interested in becoming full members of the Catholic Church. Students are invited to take an active role in liturgies and special events as readers or music ministers.

### Service, Peace and Justice

Campus Ministry promotes the principles of Catholic social teaching by providing opportunities for direct service as well as advocacy for the poor and marginalized. Members of the community are challenged to see connections between faith and service by looking to Jesus Christ as our model. Students participate in numerous volunteer opportunities throughout the year. Through workshops, discussions, and fundraising, Campus Ministry aims to raise awareness of the needs of the global community and to discern appropriate responses to these needs.

### Alternative Spring Break

In partnership with student organizations, this program gives students the opportunity to do meaningful service work during spring and summer recesses. Past service trips have taken students to Washington, D.C. and New Orleans. Work has included manual labor, working in schools, and teaching Bible stories to children through a process called clown ministry.

### Spiritual Growth & Pastoral Care

There are many opportunities to explore and deepen your faith. Campus Ministry offers retreats and spiritual direction to interested students. Other opportunities can be developed as needs arise and students express interest.

### Leadership Development

Campus Ministry offers opportunities for servant leadership, leadership based on the belief that we are called to serve and not be served. These opportunities include roles at liturgies and prayer experiences, oversight of various volunteer projects, and program development and implementation. There are also opportunities for students to be part of a team that facilitates retreats for high school students from the Diocese of Manchester.

### Staff

Campus Ministry is staffed by one full-time director. There are also possibilities for work study students to be involved in the daily operation of the office. For more information, visit [www.rivier.edu/ministry](http://www.rivier.edu/ministry) or call 897-8577. Email us at [campusministry@rivier.edu](mailto:campusministry@rivier.edu) or “like” the Rivier Campus Ministry Facebook page for information on upcoming events.

Rivier seeks to establish and maintain an environment in which a student-athlete's activities are conducted as an integral part of the student-athlete's educational experience. Rivier also seeks to establish and maintain an environment that values cultural diversity and gender equity among the student-athletes and the athletics staff. There are seven women's varsity teams and six men's varsity teams at Rivier University. - To provide the University community with culturally and socially enriching programs and activities;
- To enhance the presence of a diverse population on Rivier University's campus;
- To provide resources to minority students on the local Nashua area;
- To provide campus training on diversity and inclusion.

### **Office of Student Life and Housing Services**

The residence areas of Rivier University offer a unique experience in community living that extends the learning process of the University beyond the classroom. Students and staff work cooperatively to establish and maintain a living environment that supports the University's mission, promotes student growth and respects all people as individuals. At Rivier, we strive to create a community in which everyone is included and encouraged to actively participate in the developing and changing nature of our campus. It is the hope of the Residence Life Staff that each resident will give and receive respect, support and encouragement to grow, change, learn and develop through their experiences living on campus.

#### **Staff**

The Director of Student Life and Housing Services lives on campus and coordinates all functions of the University's residence halls. Each building has a staff of trained personnel available to assist resident students with social, personal, academic and cultural concerns. In addition to the Director of Student Life and Housing Service we have full-time undergraduate students, residing in residence halls serving as RAs who have been selected and trained to assist resident students with the challenges of community living.

The primary function of the staff is to create, with the residents of each floor, a positive living environment. In addition to enforcing University policy, the staff is also present to maintain building safety and security. Ten to twelve undergraduate students (Resident Assistants) and three professional Hall Directors make up the Residence Life Staff. There is a staff member on duty at all times to address any student concerns. These individuals are employed by the University specifically to assist and serve students. These staff members are particularly important to students and we recommend that you become familiar with who they are and what they do.

Members of the University and Residence Life Staff are charged with maintaining environments conducive to the living and learning purposes of the University. Staff members may take immediate action in response to any given situation. The instructions of a staff member acting in the fulfillment of his/her duties are to be followed. Failure to heed these instructions is a serious breach of University conduct and will result in disciplinary action including, but not limited to, removal from on-campus housing.

#### **House Keeping and Maintenance**

The excellent condition of the buildings and grounds is due to the outstanding efforts of the Housekeeping and Maintenance staff. The common areas (hallways, bathrooms, lounges) of the residence halls are cleaned Monday-Friday by the University housekeepers. Students are required to leave all common areas in acceptable condition after use. Please assist the staff by helping to keep Rivier a clean and comfortable place to live.

#### **VACUUM CLEANERS:**

To borrow a vacuum cleaner, you may contact any member of the Residence Life Staff. Vacuum cleaners are kept in the Staff Office in Guild and in designated areas of Trinity, Presentation and Brassard. You will be asked to leave your student ID or license to borrow a vacuum cleaner.

### **Residence Hall Security**

The doors to the residence halls are locked 24 hours a day unless opened for special programs/functions. The front and back doors to the halls are accessible with a resident student ID card until 11:00 p.m. each night. At 11:00 p.m. alarms are activated on all doors, except the main entrance. This procedure helps to monitor the flow of traffic to and from the building and to assist with safety and security. The lounges in each hall are available to students and their guests until 2:00 a.m. All guests must either sign in as overnight visitors or vacate the halls at this time. Public Safety/Security assists with this process as they conduct routine rounds of the halls and surrounding property each night. The lounges are available to resident students 24 hours per day unless reserved through the Office of Student Life and Housing Services. Emergencies should be reported immediately to the Public Safety/Security Office or the staff person on duty.

### **Resident Student and Guest Expectations**

Student conduct and behavior expectations for resident students are outlined in the guidelines distributed by the Office of Student Life and Housing Services as well as in this handbook; residents are responsible for all policies and procedures outlined in this publications. Commuters visiting residents in the residence halls are responsible for all policies and procedures set forth by the University.

### **Parent/Guardian Notification**

Rivier University communicates directly with students on matters that affect their college career. When students are experiencing challenges, the University reserves the right to involve parents or guardians as a means of additional support. The University may notify parents or guardians of students in all conduct or safety considerations. The Vice President or designee will make such contact whether by telephone or in writing.

### **Summer Housing**

Summer housing is available to students taking summer classes at Rivier University. Information regarding room rentals, policies and check-in/out are available from the Office of Student Life and Housing Services.

### **Vacation Periods**

Rivier University closes its residence halls during the Thanksgiving, Christmas, spring, Easter and summer breaks for all students. A student will only be permitted to remain on campus under unusual and extenuating circumstances. Students remaining in the residence halls for non-academic reasons will be charged a fee. Student teachers and interns must obtain authorization from the department chair in order to be considered for vacation housing. Students who live on campus during times when the residence halls are officially closed need to be aware that:

- They may be asked to change rooms.
- The University will not provide routine food services.
- They are expected to abide by residence hall and security regulations as usual.
- The University will provide an emergency contact person.
- The Vice President for Student Affairs, in conjunction with the Director of Student Life and Housing Services, has the right to require the students to leave campus at any time.
- Students must pay a set fee to the Business Office in advance.

## **On Campus Housing**

### **THE RESIDENCE HALLS**

There are four residence halls on Rivier's 68-acre campus. Guild Hall, built in 1960, Trinity Hall, opened in 1965, Presentation Hall, opened to the University's Sisters in 1977, then opened to students for the first time in 1999, and Brassard Hall, opened in the fall of 2001. Traditional-aged first year students are assigned to Guild Hall. After the first year, residents are free to live in the hall of their choice based on seniority and space availability. Presentation Hall is home of the Wellness Housing Program and offers a substance-free living environment for interested students.

There are triple, double, single and designated single rooms available to students. Room rates are determined by the Business Office and posted in the halls prior to room selection. All rooms are available to all students registered for the lottery/selection process during the spring semester, unless certain rooms have been reserved for staff, medical problems or as deemed necessary by the University.

### **LIVING and LEARNING Together**

Community is defined as a group of people living in the same locality and under the same government. Residents at Rivier have chosen to become part of a large community of people who work hard to foster personal, spiritual and educational growth. Within the residence halls you become members of a smaller community that share much more than common facilities.

Regardless of the length of time you and your roommate have known each other, a challenge confronts you: the challenge to create a roommate relationship or to continue one based on respect for your roommates' personal life, tolerance for the differences which exist between you and the commitment for open discussion and resolution of problems which may arise while living together.

Students are encouraged to be responsible for their individual actions as well as for the way the community functions as a whole. Inherent in any community is basic responsibilities for all members; these guidelines are outlined as follows:

#### **The Basic Responsibilities of All Residents: A Social Contract**

- ◆ To treat other residents with respect and consideration
- ◆ To understand all policies and regulations necessary for the hall community to function, and to abide by those rules
- ◆ To be responsive to all reasonable requests of fellow residents
- ◆ To be responsive and cooperative in all dealings with residence hall and University staff members
- ◆ To accept responsibility for personal and community safety - refrain from misusing safety equipment, propping open locked doors, losing or forgetting room keys
- ◆ To recognize that public areas and their furnishings belong to everyone, and abuse of those areas violates the rights of the community

We ask that each resident abide by the previously stated social contract to ensure that the needs of all students are taken into account.

### **Eligibility for On-Campus Housing**

A student living in the residence halls must be enrolled in and maintain a minimum of 12 credits per semester within the School of Undergraduate Studies or 9 credits in the School of Graduate Studies. Exceptions to this policy for resident students will be considered by the Assistant Vice President for Student Affairs on a space available basis. Returning resident seniors in their last semester may carry fewer than 12 credits and still remain in the halls while completing degree requirements.

### **HOUSING DEPOSIT**

A deposit of \$250.00 is required to reserve a room; it is credited to the student's room and board account at the Business Office. Only returning students who have paid the deposit are eligible to participate in the room lottery and housing selection process in the spring. Room deposits for returning students are refundable until May 1st.

### **ROOM LOTTERY AND HOUSING SELECTION**

During the spring of each year each resident selects a room and roommate(s) for the following academic year. Priority for selection is based on each resident's class status, as determined by the Registrar's records.

Only students who have paid the \$250.00 deposit and have proof of payment from the Business Office are eligible to participate in the lottery/selection process. Specific lottery/selection procedures can be found in the Office of Student Life and Housing Services and are made available to all students during the spring semester each year.

## **DAMAGE DEPOSIT**

A Hall Damage Deposit of \$100.00 is payable each year of residency. When a student graduates or leaves the on-campus-housing program, the remainder of this damage deposit is refunded. Students are required to pay for any and all damages in individual rooms and common areas, which are assessed, to their account - the damage deposit will not be used to pay for damage assessments unless the student withdraws from housing.

## **ROOM CHANGES**

The Office of Student Life and Housing Services recognizes that not all people are compatible and at times, a room change may be necessary. Students who are contemplating a room change should begin by discussing the situation with their roommate and involve their Resident Assistant when necessary.

During the first two weeks of school there is a room freeze that puts all room changes on hold. During this time, the residence life staff determines who has returned to campus, who has yet to return, and what spaces are available for students interested in changing rooms. Any room changes recommended by residence staff will be made for well-founded reasons only. The Assistant VP/ Director of Student Life must authorize all changes and all residents involved will be required to complete a Room Change Request Form.

The Director reserves the right to change room assignments of any student if deemed necessary for judicial reasons or otherwise. Additionally, the Director may withdraw a student from the residence halls for disciplinary or medical reasons prior to a hearing in cases where there exists a danger to self or to others.

## **ROOM INVENTORY**

Each person is responsible for the proper care of his/her room. At the time residents move in, each receive a room inventory sheet, which is prepared by a member of the Residence Staff. This inventory determines the content and physical condition of the room. It is imperative that each resident reviews this sheet carefully before signing it so as to insure accuracy; any discrepancies need to be reported to the assigned RA. Any damage beyond normal wear and tear will be the responsibility of the room occupants. Damage billing is completed by comparing the room inventory report from check-in to the condition of the room upon check-out. Billing costs are placed on student accounts at the Business Office.

# **Residence Hall Facilities**

## **Common Areas:**

Any area or space other than individual student rooms is known as a common or public area. These include hallways, lounges, lobbies, stairways, bathrooms, etc. Residents jointly share responsibility for the condition of common areas. Intentional damage or unnecessary messes will be considered a violation of Rivier's community standards and will not be tolerated. If a room or area has damages, which no student has taken responsibility for, charges for said damages will be equally shared between building and floor residents. Since all residents have the right to use public areas you are reminded to be courteous of each other's rights to those facilities. TV/VCR and lounge space usage is on a first come first served basis. Common lounges and equipment can be reserved at any time for special programs or activities by signing up in advance with the staff member on duty.

Furniture such as tables, chairs or hall equipment are for use in the common areas only. Please do not remove anything from the lounges or kitchenettes that does not belong to you. If you bring personal items into the common areas please take them with you when you leave. The University is not responsible for loss of stolen items.

## **BATHROOM FACILITIES:**

You are requested to use the shower rooms on your floor only. Failure to be sensitive to this can create inconveniences for others. You are expected to treat these facilities with respect so that all floor members will have the benefit of a clean, problem-free area. Please report leaks, floods or any other problems to the residence staff member on duty.

## **KITCHENETTES**

Shared kitchenettes are provided in each residence hall. These areas are equipped with sinks, stoves, refrigerators, microwave ovens, toaster ovens, and ironing boards for your use. While you are cooking or using any other electrical appliances you must stay in the immediate area. Because so many residents use the kitchenettes they must be cleaned up immediately after use. The housekeeping staff is not responsible for the cleaning or upkeep of the kitchens - resident students are. Since fire codes prohibit cooking in individual rooms, students are encouraged to use any and all electrical appliances for cooking in the kitchenettes.

#### **LAUNDRY ROOMS:**

Each residence hall has a laundry areas equipped with debit-card operated washers and dryers, sinks, ironing boards and drying racks for resident's laundry needs. Residents must supply their own soap, etc. The cost per machine is posted in each laundry area. The main laundry rooms in each building are considered common areas and shared by all residents unless otherwise posted. There is a debit-card purchasing machine where you can buy a card or add cash to your card; this machine is located in the upper level of the Dion Center.

#### **LOUNGES:**

There are several common areas where students can study, socialize, and watch TV. These lounges are furnished as comfortable as possible, and a fireplace enhances the atmosphere in the Guild main lounge. Each hall is equipped with cable televisions and a VCR for use in the main lounges. A recreation room is located in Guild Hall in which there is a billiard table, Ping-Pong table, and soda, juice, candy and snack machines.

#### **LOST AND FOUND:**

Whether it is a group trip to a museum in Boston, or an overnight trip to NYC, travel can be a fun, educational, and memorable part of a college career. Rivier University believes that the safety of students, faculty, and staff is preeminent. To ensure a safe, smooth, and beneficial experience, those planning programs which involve any type of travel within or outside of the United States, must follow the guidelines provided by the office of student activities and orientation.

### **Orientation**

During the summer, the University holds an overnight orientation for entering new students and a one-day program for their families. Led by student orientation leaders, new students and their families are exposed to all that Rivier has to offer. It is the goal of the orientation program that each student and family member will leave with the information to have a successful experience at Rivier. Parents and families are able to learn about Rivier through presentations on academics, student life, and the development of college students. Additionally, the Office of Student Affairs and the student orientation leaders present programs to develop a thorough

understanding of the curriculum, services, and facilities of the University. Incoming students are required to attend all orientation programs. Transfer students have their own unique experience before the start of classes.

## **Student Government Association (SGA)**

Every undergraduate student who has paid an activities fee becomes a member of the Rivier University Student Government Association upon registration at the University. The purpose of the SGA is to:

- Stimulate active participation in all University functions.
- Establish and maintain effective channels of communication among members of the University community and the community-at-large.
- Foster a mutual trust, encourage a spirit of cooperation, and initiate new endeavors.

Student organizations on campus are organized to promote common interest within the framework of the mission of the University. The Student Government Association governs its recognized campus organizations and maintains financial control of funds paid by the students for such organizations. The criteria used to determine whether a club will be funded by SGA are:

- A club must have five active members, including officers and a faculty/staff advisor;
- The club must have a working constitution submitted to the Student Government Association; and
- The club must demonstrate an attempt to fulfill the goals articulated in the club constitution.

### **Agreement between the Administration and the SGA of Rivier University**

Rivier University administrators recognize that co-curricular activities are an important part of the growing experience complementing the more formal academic part of the education process. In light of its stated beliefs, Rivier University regards as its mission the education of the person in her/his many dimensions. To this end, students have the responsibility to take advantage of the many social, educational, and cultural co-curricular activities/programs that are available to them.

The underlying rationale for such a body as the Student Government Association is to promote the strengthening of self-direction and self-discipline on the part of the student as s/he reaches for her/his own personal goals of responsibility, accountability, and fulfillment. The administration, wishing to foster a proper balance between personal freedom and protection for the rights of all individuals and the University community as a whole, grants particular privileges and delegates certain responsibilities to the students under the government of a student council, and authorizes the Student Government Association to exercise such powers as are committed to it by its constitution. Because the University is legally incorporated in the State of New Hampshire, the University retains the right to ensure that whatever takes place within the University community or under the name of Rivier University, in no way infringes upon the rights or privileges of others. Thus, it shall be within the power of the administration to ensure that all the powers granted in this constitution will be in keeping with the missions, goals, and objectives of the University as stated in official University publications.

## Community Standards, Student Rights, and Responsibilities

### Statement on Student Conduct

Rivier University is a Catholic coeducational institution, founded by the Sisters of the Presentation of Mary. The University trusts that all students enroll voluntarily with knowledge and understanding of Rivier’s mission. Commitment to self-discipline and mutual respect towards one another is expected of all members of the University community and are essential elements of an environment centered on Christian principles. University rules and regulations are a means towards that end.

Discipline is not considered the primary means of developing responsible student conduct. Example, teaching, and counsel are believed to be more effective for encouraging mature and responsible student behavior. When these fail, however, the University must assert its disciplinary authority. It is the responsibility of the Vice President for Student Affairs (or designee) to enforce all social regulations and to impose appropriate sanctions for misconduct when necessary. A Christian principle-centered environment requires that all students participate in the development of the Rivier University community standards by not only personally respecting the rules, regulations, and policies/procedures but also encouraging others to do so. If a student becomes aware of a conduct violation, Rivier University expects the student to discourage the violation, report the violation to a University official, and not to remain passively present during the violation.

### Student Rights

As members of the Rivier University community, students have certain rights. These rights include:

- The right to be free from discrimination on the basis of race, color, national origin, religion, age, veteran or marital status, sex, gender identity, sexual orientation, or disability in admission or access to treatment in or employment in its programs and activities

- The right to confidentiality and privacy in accordance with the Family Educational Rights and Privacy Act
- The right to be free from harassment, bullying, threats, hazing, intimidation, and violence
- The right to be treated respectfully as a member of the Rivier community
- The right to request assistance from any member of the Student Affairs staff and to be treated with professionalism
- The right to a fair and timely administrative hearing on all conduct charges and to know the charges and evidence against them
- The right to appeal all conduct decisions in accordance with procedures in the Student Handbook
- The right to peaceful assembly that does not disrupt or interfere with the operation of the University
- The right to express opinions which differ from that of the University in a manner appropriate for a Catholic institution

Perceived violations of these rights should be reported to the Vice President for Student Affairs (or designee).

## Student Responsibilities

- In support of the University's REACH values, students have the responsibility to be respectful of all community members, to engage fully in their educational endeavors, to hold themselves accountable for their words and actions, to be compassionate by upholding the dignity and value of all human life, and to be honest in all interactions within the University community.
- All members of the Rivier University community share the responsibility for protecting and maintaining community health, safety, and the rights of others.

## Disciplinary Procedures

### Administrative Action

The University reserves the right for the Vice President for Student Affairs (or designee) to hear serious violations of University policy or repeated violations of a more minor nature, which are referred by another University official. In such cases, the Vice President for Student Affairs (or designee) shall proceed with fairness to all parties. In the event that the administrative process involves a situation pertaining to sexual misconduct, including sexual harassment, sexual assaults, stalking, dating violence, or domestic violence, separate and distinct processes are enacted (reference Title IX, Sexual Misconduct, Sexual Harassment, Sexual Assault, Stalking, and Intimate Partner Violence policies). University policy prohibits any interference with a University investigation or disciplinary process. Interference includes, but is not be limited to, the harassment, abuse, threat or intimidation of any witness or party to an incident, tampering with physical or potential physical evidence, or communicating or attempting to communicate with any witness or potential witness for any reason relating to influencing any University investigation or disciplinary process

(Note: To appeal a decision of the VPSA, see below) All appeal letters must be submitted no later than 4:00 p.m. on the third working day after being notified of the decision. Students are expected to take all reasonable steps to obtain notification of the decision. A sanction will not begin until at least the fourth working day after a decision is rendered to allow time for an appeal to be made. Appeals must be based upon the following grounds: (1) the evidence was insufficient to warrant the actions, (2) new evidence is now available that was not available at the time of the decision, (3) a procedural error(s) took place and due process was not followed or (4) the severity of the sanction(s) assessed is not appropriate for the violation(s). Appeal outcomes may include (1) upholding the decision, (2) lessening the sanction, (3) increasing the sanction, or (4) modifying the sanction. The decision of the appeals officer or Appeals Board is final and sanctions may take effect as soon as the appeal decision is rendered or at such other time as the appeal decision may set forth. Appeals of a Resident Director Decision may be submitted to the Assistant Vice President for Student Affairs. Appeals of the Assistant Vice President for Student Affairs may be submitted to the Vice President for Student Affairs. Appeals of the Vice President for Student Affairs may be submitted to the Appeals Board. Information on the Appeals Board may be obtained in the Office of Student Affairs.

## Institutional Policies

### Academic Honesty

Plagiarism and cheating are serious breaches of academic honesty. In general, plagiarism is defined as the presentation of someone else's work in whatever form: copyrighted material, notes, film, art work, reports, statistics, bibliographies, and the like, as one's own, and failing to acknowledge the true source.

Quoting word-for-word, or almost so, or using the argumentation of another source without acknowledging this dependence also constitutes plagiarism. Cheating is defined as the giving or attempting to give or to receive unauthorized information or assistance during an examination or in completing an assigned project. Submission of a single work for two separate courses without the permission of the instructors involved is also a form of cheating. If students are unsure whether a specific course of action would constitute plagiarism or cheating, they should consult with their instructor in advance. Penalties for plagiarism and cheating vary with the degree of the offense and may take the form of the following academic sanctions:

- the grade of F for the work in question;
- the grade of F for the course;
- notification of the divisional dean and/or Associate Vice President for Learning Effectiveness of the misconduct of the student;
- recommendation that the student be suspended or dismissed from the University.

### Interim Suspension

The Vice President for Student Affairs, or other designee, may impose a University or residence-hall suspension prior to a disciplinary hearing.

Interim suspension may be imposed only:

- to ensure the safety and well-being of members of the University community or preservation of University property
- to ensure the student's own physical or emotional safety and well-being
- if the student poses a threat of disruption of or interference with the normal operations of the University

During an interim suspension, the student shall be denied access to the residence halls and/or to the campus (including classes) and/or all other University activities or privileges for which the student might otherwise be eligible, as the Vice President for Student Affairs, or other designee, may determine to be appropriate.

Upon a student's request, a review of the interim suspension shall be held by the Vice President for Student Affairs, or other designee, within three working days of the interim suspension to determine if the suspension should continue until a disciplinary hearing on the alleged violation of misconduct is held.

Students who have been interim suspended may not return to campus without prior approval of the Vice President for Student Affairs or designee. *Nothing in this section shall be deemed to constitute grounds for discrimination against disabled individuals capable of functioning effectively in the University community.*

The following actions constitute violations of Rivier University policy:

3. Drinking of alcoholic beverages in public areas.
4. Drinking of alcoholic beverages in University residence halls, except by residents and their guests who are 21 years old, or serving alcohol in residence hall rooms where individuals who are less than 21 years of age are present.

Rivier seeks to be a community committed to the health and safety of its students. Severe impairment whether by alcohol or drugs is potentially a life threatening emergency. Impairment to the extent that requires the attention of University staff, causes a disturbance or is a danger to self or others or property is prohibited. In the event of an ambulance call due to excessive drug or alcohol intoxication, Rivier considers this to be a case of an emergency or serious threat to personal safety and therefore Rivier reserves the right to notify a student's parents or family to advise them of the danger posed to the student's health and safety.

Failure to comply with New Hampshire state law or Rivier University policy may result in a range of actions including but not limited to a fine, a mandatory assessment with the Rivier University Counseling and Wellness Center or comparable community agency, loss of on-campus housing privileges, loss of guest privileges in the residence halls, suspension, expulsion, and/or prosecution by the State of New Hampshire.

## Assessment of Student Learning Outcomes

As a part of its stated mission regarding the pursuit of academic excellence, Rivier University is committed to assessing student attitudes, student achievement, student satisfaction, and career development. Assessment activities may include standardized testing, departmental evaluations, course evaluations, placement tests, surveys, portfolios of student work, group or individual interviews, or classroom research. The information obtained through these college-wide assessment activities is used primarily to improve students' academic experiences, programs, courses, and quality of University services. All students are required to participate in the University's assessment activities.

## Bias Motivated Offenses

Any offense that is motivated by bias may result in stronger sanctions/penalties. An offense motivated by bias is any offense wherein the accused intentionally selects the alleged victim because of the alleged victim's race, color, national origin, religion, age, veteran or marital status, sex, gender identity, sexual orientation, disability, or where a person is targeted by the accused because of status or group characteristic (e.g., race) or affiliation (e.g., religion).

## Bullying, Harassment and Intimidation

Respect for others' rights, privileges, and sensibilities is essential. All students have the right to have a safe, secure, private and peaceful environment in which to live, study and work. Rivier University will not tolerate bullying, harassment and intimidation and is committed to providing an educational setting that is safe, secure, private, peaceful and free from bullying, harassment and intimidation.

Bullying, harassment and intimidation, as used in this statement, include actions shown to be motivated by actual or perceived race; color; religion; national origin; ancestry or ethnicity; sexual orientation; socioeconomic status; age; physical, mental, emotional, or learning disability; gender; gender identity and expression; veteran or marital status; obesity, or other distinguishing personal characteristics, or based on association with any person identified in any of the above categories. Bullying, harassment and intimidation means a single significant incident or a pattern of incidents involving a written, verbal, or electronic communication, a physical act or gesture, or any of the combination of these, directed at another student. Bullying, harassment and intimidation can include physically harming a student or causing damage to their property. It also may cause emotional distress to a student which interferes with the student's educational and living environment and creates a hostile educational and living environment. This statement also includes cyber-bullying. Cyber-bullying includes any of the situations listed in the prior paragraph but is undertaken

through the use of electronic devices. Electronic devices include, but are not limited to, telephones, cellular phones, computers, pagers, electronic mail, instant messaging, text messaging, Twitter, Facebook, and other social media and websites.

Such conduct is contrary to the Rivier University mission statement, is disruptive to the educational process and is prohibited. Students who engage in bullying, harassing behavior and intimidation, whether on or off campus, may be subject to disciplinary action. It is also noted that such conduct may constitute violations of either state or federal civil rights laws and as such may subject the violators to the civil and/or criminal penalties available under those laws. Any student who believes that he or she has been the victim of bullying, harassment or intimidation should promptly report the incident or incidents to the Department of Public Safety and Security, the Assistant Vice President for Student Affairs or the Vice President for Student Affairs. Retaliation or false accusations against a victim, witness, or anyone else who in good faith provides information about an act of bullying or cyber bullying is prohibited.

## Classroom Behavior

The classroom is the heart of the educational experience at Rivier University because it provides a formal setting for important exchanges among students and faculty. Rivier University affirms the rights of all students and their faculty to an environment that is conducive to teaching and learning. Therefore, the University does not condone behavior that, in the judgment of the instructor and/or the University, interrupts, obstructs, or inhibits the teaching and learning process. Disruptive behavior may include, but is not limited to, verbal attacks, intimidating shouting, inappropriate gestures, attending class under the influence of drugs or alcohol, unauthorized use of electronic devices, consistently coming to class late or leaving early, sleeping during class, threatening or harassing comments, bullying, profanity, incessantly whispering/ talking in class, or other similarly intrusive or disrespectful behavior. Disruptive behavior may result in sanctions, up to and including immediate removal from the University.

## Electronic Devices in the Classroom

Students may not use electronic devices (such as cell phones, PDAs, pagers, MP3/iPods, laptops, etc.) during class unless permitted by the course instructor. If use of these devices is permitted by the instructor, they are to be used for appropriate class activities only. If a learning disability is substantiated to require the use of one or more of these items, the student must contact the Office of Disability Services (897-8497), which will work with the student and the course instructor as appropriate to facilitate an agreement regarding reasonable accommodations. Augmentative communication devices are excluded from this policy. Augmentative communication is an alternative way to help students with language disorders use receptive and expressive language. Augmentative communication can be accomplished through various assistive technology devices such as computers or hand held devices. Augmentative communication is most often used with students who have significant disabilities impacting language or those who do not have the ability to speak. If an emergency situation requires students to leave a cell phone on, they should inform the course instructor at the beginning of the class and leave the phone in a non-intrusive mode so as not to disrupt the class.

## Computer Use Policy

As used herein, the term “resources” refers to any technology-related property including computer networks, desktop computers, workstations, servers, printers, software, documentation/manuals, or any data stored within any device. Rivier University strives to maintain the integrity of its technology resources and to provide an environment that reflects the University’s mission and heritage. Those who use technology and network resources are required to use them in a manner consistent with the University’s standard of conduct. Rivier University’s technology resources are available to current faculty, staff, students, and other authorized users. To ensure personal privacy, the University does not routinely examine files in user accounts. However, these resources are the property of Rivier University and the University does not waive any of its property rights regarding these resources and specifically reserves the right to examine such files as it, in its sole discretion, determines appropriate for it to carry out its mission and responsibilities as it perceives them. To protect the integrity of the systems and protect legitimate users from the effects of unauthorized or improper use of these facilities/ resources, the University maintains the authority to take any of several steps. These include, but are not limited to: the authority to limit or remove any account holder’s access to technology resources; the authority to inspect, copy, remove or otherwise alter any data, file, or system resources that may undermine the proper use of that system; or any other steps deemed necessary to manage and protect the University’s technology resources. This authority may be exercised with or without notice to the user. The University disclaims responsibility for any loss or damage to data or software or any other claimed losses or damages, and the user specifically waives any right to any and all losses and/or damages by using the University’s resources that results from its efforts to enforce these rules. The following list suggests all of the responsibilities that you accept if you choose to use the University’s technology resources or network access that Rivier University provides:

- You may not intentionally seek information about, browse, copy, or modify files or passwords belonging to other people, whether at Rivier University or anywhere else.

- You are authorized to use only those resources to which you have specifically been granted access. If it is unclear whether you are authorized to access or use a particular resource, assume that you may not do so.
- You are NOT authorized to grant others access to your resources, including your username/password.
- The University's policies on harassment apply to electronic displays and communications with the same force as they do to more traditional means of display and communication.

- Messages, sentiments, or declarations sent as electronic mail or other postings must meet the same standards for distribution or display as tangible documents.
- You must not engage in activities that degrade computing or network performance in a manner that may prevent others from meeting educational or administrative objectives.
- You must not create or willfully disseminate computer viruses. You should be sensitive to the possibility of spreading viruses and should take steps to insure your files are virus-free.
- You may not use the University's technology resources for private or commercial monetary gain.

The above statements are not intended to serve as an exhaustive list. Members of the University community are also expected to observe federal, state and local laws, as well as the University's other regulations and policies. Violations of the computer use policy will be processed through the University's student conduct system. Sanctions may include, but are not limited to, fines, temporary loss of privileges, or suspension of campus network privileges.

## Criminal Law

Students, like all citizens, must abide by local, state and federal laws. Consequently, a student who violates the law, whether on or off-campus, is subject to legal prosecution. In addition, where a violation of law is also a violation of University policies, procedures, and rules, the student involved is subject both to legal prosecution and University disciplinary action. Whether University disciplinary action precedes, is concurrent with, or follows legal prosecution depends upon the nature of the alleged violation, and the degree to which the alleged misconduct affects or interferes with the educational mission of the University or the educational pursuits of any member(s) of the campus community.

## Drug Policy

Rivier University abides by the laws of the state of New Hampshire. Therefore, all members of the University community are responsible for making decisions about behavior within the context of New Hampshire state law and the policies and practices of the University. The state law defines controlled drugs as those drugs and chemicals having a stimulant, depressant or hallucinogenic effect upon the higher functions of the central nervous system and as having a potential for abuse or physiological dependence, or both. Controlled drugs are classifiable as amphetamine-type, barbiturate-type, cannabis-type, cocaine-type, hallucinogenic, morphine-type, and other stimulant and depressant drugs.

Marijuana is an illegal drug in The State of New Hampshire. Rivier University is also an institution that receives federal funding. As such, the University will continue to be bound by Federal regulations in the Safe and Drug Free Schools and Communities Act and the possession and use of marijuana, including for medical reasons, is prohibited on the Rivier University campus and will be considered a violation of Rivier University Drug Policy.

While not a violation of state law in many cases, Rivier University considers the use or possession of synthetic drugs or any substance designed to have a stimulant, depressant or hallucinogenic effect upon the higher functions of the central nervous system a violation of the Rivier University Drug Policy.

Under New Hampshire state law, it is illegal to:

1. Manufacture, possess, have under your control, sell, purchase, prescribe, administer, transport or possess with intent to sell, dispense or compound any controlled drug, or any preparation containing a controlled drug.
2. Deliver, possess with intent to deliver, or manufacture with intent to deliver, drug paraphernalia, knowing that it will be used to plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, conceal, inject, ingest, inhale, or otherwise introduce into the human body a controlled substance.
3. Place in any newspaper, magazine, handbill, or other publication any advertisement, knowing that the purpose of the advertisement, when viewed, as a whole is to promote the sale of objects intended for use as drug paraphernalia.
4. Facilitate a drug house party.

The New Hampshire state law provides that any minor 12 years of age or older may voluntarily submit herself/himself to treatment for drug dependency or any problem related to the use of drugs at any municipal health department, state institution or facility, public or private hospital or clinic, any licensed physician, or other accredited state or local social welfare agency, without the consent of a parent or guardian. Students who need referrals to appropriate agencies may obtain that information from the Offices of Student Affairs or Counseling and Wellness. Failure to comply with New Hampshire state law or Rivier University policy may result in a range of actions including but not limited to a fine, a mandatory assessment with the Rivier University Counseling and Wellness Center or comparable agency, loss of on-campus housing privileges, loss of guest privileges in the residence halls, suspension, expulsion, and/or prosecution by the State of New Hampshire.

Rivier seeks to be a community committed to the health and safety of its students. Severe impairment whether by alcohol or drugs is potentially a life threatening emergency. Impairment to the extent that requires the attention of University staff, causes a disturbance or is a danger to self or others or property is prohibited. In the event of an ambulance call due to excessive drug or alcohol intoxication, Rivier considers this to be a case of an emergency or serious threat to personal safety and therefore Rivier reserves the right to notify a student's parents or family to advise them of the danger posed to the student's health and safety.

### **Drug Paraphernalia**

Rivier University prohibits the possession, use or distribution of all types of drug paraphernalia, including but not limited to pipes, rolling papers, clips, and syringes. Possession of such paraphernalia will be considered sufficient evidence that a violation of the University Drug Policy has occurred. If found, any such item will be confiscated and the student subject to the full range of sanctions noted above.

### **Evidence of Drug Policy Violations**

The following are considered to be evidence of drug policy violations and sufficient grounds for full disciplinary actions: the actual presence of a controlled substance/illegal drug, any synthetic drug or substance prohibited under the Rivier University Drug Policy and the presence of smoke or odors, as in the case of marijuana. In addition, all students present at the time of the violation will be held responsible for the infraction.

### **Penalties**

Failure to comply with New Hampshire state law or the policies of Rivier University may result in a range of penalties including referral to a treatment program, loss of on-campus housing privileges, suspension, expulsion, termination of employment, and/or prosecution by the State of New Hampshire. Nonstudents who violate this policy may be subject to being banned from campus property and/or prosecution by the State of New Hampshire.

## **Entry into University Premises Including Residence Hall Rooms**

University authorities reserve the right to enter all campus premises on a regular basis. A student's residential room is considered private, and representatives of the University will ordinarily enter only after knocking on the door. They will enter to: (a) attend to maintenance needs or complete ongoing projects; (b) assist in any emergency; (c) retain or re-establish peace and order; (d) recover or prevent the destruction of University property; (e) perform health and safety inspections; or (g) investigate alleged violations of federal, state, municipal laws or University policies, rules or regulations. University representatives retain the authority to conduct searches of rooms regardless of the permission of the residents of the room. When rooms are entered for the above stated reasons, the resident's right to privacy will be maintained to the extent appropriate under the circumstances as determined by the University representatives, consistent with University protocol.

University representatives will inspect premises as needed throughout the year to identify and address problems and concerns in the residence halls and elsewhere on campus. In most University residences, health and safety inspections occur at least twice each semester and should be expected, at a minimum, at the beginning and end of each semester. Students, in accepting student housing, agree that University representatives retain the right to inspect the student rooms, in the student's presence whenever possible, for purposes of inventory, fire protection, sanitation, health, safety, maintenance and rule enforcement, consistent with the University's policies. The University retains the right to conduct an investigation and retain such evidence of violation as it deems appropriate. Students are advised that the University will take disciplinary action against violators of University policy.

Residence hall students have responsibility to familiarize themselves with the guidelines distributed in the halls and Campus Security regulations for additional policies and regulations pertaining to their living accommodations.

## Firearms, Firearm Replicas, Weapons, Fireworks, Explosives, and Flammables

The possession of or use of any firearm, replica firearm, deadly weapon, or other dangerous or flammable material (with the exception of flammables used for legitimate personal use) is strictly forbidden on the Rivier University campus. This includes, but is not limited to, the possession of or use of ammunition, air rifles, air pistols, gas powered guns, paintball guns, sporting-type weapons, sling shots, toy guns that are painted black, gun blue, dark blue, brown or silver, toy knives that are painted silver, black, brown, gun blue or dark blue, the carrying of any toy gun or toy knife concealed, the possession of any object that is meant to depict any type of an explosive device such as but not limited to a hand grenade, suicide bomb vest, suitcase bomb, pipe bomb or explosive satchel and the possession of or use of fire crackers. Deadly weapon is defined to be any firearm, knife or other substance or thing which, in the manner it is used, intended to be used or threatened to be used, is known to be capable of producing death or serious bodily injury. Violation of this policy will result in an immediate disciplinary response.

## Fire Safety

Fire safety devices have been installed for protection and safety. Fire drills are conducted in the residence halls and academic buildings at least four times a year. In case of fire, this is the evacuation plan to be followed:

- Know all your choices of exits and stairways.
- If you discover a fire, alert others by pulling the fire alarm.
- Know where fire alarm pull stations and fire extinguishers are located.
- As you leave, the way may seem clear. If conditions change and smoke fills the hallways, get down low, on your hands and knees if necessary, to stay below the smoke.
- Once out of the building, stay well clear. Never go back into the building until the all clear is given by the fire department or University security personnel.
- Do not use the elevator.
- If you cannot use the stairs due to a physical disability go to a rescue area which is located in the stairwell of the building and wait for assistance. Be sure to notify someone that you will be in the rescue area.

Pulling false alarms, tampering with the fire equipment, or tampering with fire extinguishers is prohibited. Tampering with or falsely activating the Campus Help Phones is prohibited. Violation of this policy will result in disciplinary action including expulsion.

## Habitual Non-Attendance Policy

Habitual non-attendance is defined as an absence in any course (for any reason whatsoever) equating to three full weeks of missed class sessions (3 absences for a course meeting once a week, 6 absences for a course meeting twice a week, 9 absences for a course meeting three times a week). Faculty members will notify the Office of Academic Advising when a student has reached the habitual non-attendance criteria for their course(s). The student's Academic Advisor will then attempt to resolve the issue of habitual non-attendance with the student. It is the student's responsibility to notify the Office of Academic Advising of any intention to withdraw from a course or to withdraw from the University. If the student, however, has not officially withdrawn from the course(s) by the University's published last date to withdraw from a course, the faculty member will assign a grade of F.

Students who have been documented as habitual non-attendees in one or more classes may also be in jeopardy of violating the Resident Attendance Policy. Students who have attended no class sessions of a course or courses from which they are registered by the end of the drop/add period will be dropped from each class not attended. If a student never attended any courses during the drop/add period, the student will be withdrawn from his/her full schedule of courses.

## Halogen Light Safety Policy

Halogen floor and table lamps, commonly known as torchiere lamps, have been found to cause many preventable fires. The danger posed by these lamps is the high temperature of the bulb, which is sufficient to rapidly ignite paper, cloth or upholstery materials. A typical 500-watt bulb can reach temperatures of 1,200 degrees. These lamps are attractive due to the bright light they produce and their low cost.

In a response to these apparent dangers, Underwriters Laboratories (UL) added strict guidelines in the selection and testing of lamps requesting UL approval. In an effort to continue to put safety first on our campus, the use and possession of these lamps will not be allowed in the residence halls, classrooms, academic offices, department offices, work spaces or public areas of Rivier University.

## Off-Campus Conduct

Rivier University reserves the right to take disciplinary action against students who are involved in off-campus conduct or off-campus incidents. Students should understand that violations of local ordinances, state or federal laws may subject the student to disciplinary action by Rivier University whether those violations occur on or off campus, on or off University-owned property, whether during an activity sanctioned by the University or otherwise, when the off-campus behavior may negatively impact Rivier University's campus life, its faculty, administration, students, its educational mission, processes, or functions, or anyone affiliated with the foregoing. While Rivier University recognizes that it cannot supervise, control or oversee off-campus conduct to the same degree or in the same way as conduct on campus, it retains the right to investigate and take any appropriate disciplinary action with regard to any conduct or incident off campus that, if committed on campus, would be investigated and may lead to disciplinary action. Examples may include, but are not limited to: selling or distributing alcohol to underage students; selling or distributing illicit drugs; sexual misconduct; harassment, sexual or otherwise; sexual assault or other sexual violence; otherwise violent behavior including assault or battery; hazing; theft or destruction of property; disorderly conduct; acts of dishonesty, breaches of the peace and otherwise intrusive and unacceptable conduct detrimental to others' peace and enjoyment whether subject to the code of conduct of students attending Rivier University, the criminal code of the State of New Hampshire, or any other state, the criminal code of the United States government or otherwise. Sanctions for these offenses may include suspension or expulsion from Rivier University as well as other sanctions available to the administration.

## Off-Campus Publicity

When students or student groups wish to publicize activities through the news media (newspapers, radio or television), they are required to contact the Marketing and Communications Office, which will assist with and coordinate publicity efforts.

## Posting Policy

In order to maintain the beauty of our campus and prevent damage to buildings, the following guidelines should be followed:

- Postings should not be placed on painted surfaces, woodwork or windows.
- Posting is not permitted on floor tiles, carpets, steps, etc., as this is a safety hazard.
- Postings should not be offensive in nature nor in conflict with the mission of Rivier University.

- Postings may not be distributed in Rivier University parking lots or placed on vehicles parked on Rivier University property.
- See the Assistant Vice President for Student Affairs for information about posting in the residence halls.
- Postings should be removed once the event has passed.

All postings for academic/public buildings on campus must receive a stamp of approval from the Office of Student Affairs located in the Dion Center. Employees wishing to post non-University related notices should seek the approval of Human Resources prior to displaying ads/flyers on University property. Violation of the above policy may result in sanctions against the sponsoring organization(s).

The Roman Catholic Church teaches that the fundamental rights of all people must be defended and that all of us must strive to eliminate any forms of injustice, oppression, or violence against humanity. Rivier University condemns any and all direct or indirect harassment, intimidation, or bullying of any person for any reason.

## Timely Warnings

Pursuant to the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, the Rivier University Public Safety & Security Office provides notification to the university community in the form of **Timely Warnings (crime alerts)** and/or **Emergency Mass Notifications (voice, text, sirens)** when a significant criminal incident occurs on campus or in an area surrounding campus that represents a continuing public safety threat.

Decisions to disseminate a communication will be made on a case-by-case basis in light of all the facts surrounding the crime and the continuing danger to the campus community. The purpose of the notification is to aid in the prevention of similar crimes by alerting the community about the incident and providing information on what actions people can take to diminish their chances of being victimized.

## Title IX: Student Sexual Violence and Misconduct Policy and Procedures

## Title IX

Rivier University, the U.S. Department of Education and its Office for Civil Rights (OCR) believe that providing all students with an educational environment free from discrimination is extremely important. The sexual harassment of students, including sexual violence, interferes with students' rights to receive an education free from discrimination and, in the case of sexual violence, is a crime. Title IX of the Education Amendments of 1972 (Title IX) prohibits discrimination on the basis of sex in educational programs or activities operated by recipients of Federal financial assistance. Sexual harassment of students, which includes acts of sexual violence, is a form of sex discrimination prohibited by Title IX.

Rivier University is committed to assisting all members of the Rivier University community in providing for their own safety and security and to be free from sexual discrimination.

## Notice of Nondiscrimination

Rivier University does not discriminate on the basis of race, color, national origin, religion, age, veteran or marital status, sex, gender identity, sexual orientation or disability in admission or access to, treatment in or employment in its programs and activities, and Title IX requires that the University not discriminate on the basis stated above. The following persons have been designated to handle inquiries regarding Title IX and the nondiscrimination policies: Cheryl Bagtaz Director of Human Resources in Molloy Hall Room 24, ext. 8210 for employees; Kurt Stimeling Vice President for Student Affairs in the Dion Center Room 209, ext. 8249 for students. You may reach them at their office extensions, email, or at [TitleIXCoordinator@rivier.edu](mailto:TitleIXCoordinator@rivier.edu). Inquiries concerning the application of nondiscrimination policies may also be referred to the Regional Director, Boston Office, Office for Civil Rights, US Department of Education, 8th Floor, 5 Post Office Square, Boston, MA 02109-3921, P: (617) 289-0111, F: (617) 289-0150; TDD: (877) 521-2172, [OCR.Boston@ed.gov](mailto:OCR.Boston@ed.gov).

## Sexual Harassment Policy

Sexual harassment is prohibited at Rivier University and in its programs, activities, and functions. Sexual harassment can be verbal, non-verbal, visual or physical and may take several forms. It ranges from sexual innuendoes made at inappropriate times, perhaps in the guise of humor, to coerced sexual relations. Harassment at its extreme occurs when someone in a position to control, influence or affect another's job, career or grades, uses their authority and power to coerce the other into sexual relations, or to punish their refusal. Sexual harassment may include:

1. Verbal harassment or abuse
2. Subtle pressure for sexual activity
3. Sexist remarks about another person's clothing, body, or sexual activities
4. Unnecessary/unwanted touching
5. Demanding sexual favors accompanied by implied or overt threats concerning one's job, grades, letters of recommendations, or similar use of authority or power.
6. Physical assault.
7. Displays of pornographic or sexually suggestive materials
8. Obscene gestures
9. Leering or staring at your body
8. Other behavior of a sexual nature where:
  - Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or participation in a University sponsored program or activity, or
  - Submission to or rejection of such conduct by an individual is or may be used as the basis for academic, employment or other University decision affecting that individual, or
  - Such conduct unreasonably interferes with an individual's academic and/or work performance, participation in University sponsored programs or activities, or creates an intimidating, hostile or offensive working, educational, or residential environment provided by the University.

Harassment on the basis of sex is a violation of Title VII/IX of the Civil Rights Act of 1964 and is illegal under both state and federal law. In some cases, such conduct may also subject the alleged harasser to criminal prosecution, separate and apart from whatever action the complainant or the University may take outside of criminal court. Conduct alleged to be sexual harassment will be evaluated by considering the totality of the particular circumstances, including the nature, frequency, intensity, location, context and duration of the questioned behavior. Unwelcome conduct of a sexual nature can form the basis of a sexual harassment claim if a reasonable person, similarly situated, would consider it so unreasonable, severe or pervasive as to interfere with academic, educational, or employment performance or participation in a University program or activity or residential environment. Sexual harassment can occur when one person has power or authority over another; however, it may also occur between individuals of equal status or rank within the University. Sexual harassment may occur between males and females and between persons of the same

gender. Harassment between individuals of different genders does not constitute sexual harassment where the difference in gender is the sole reason for the complainant's identifying the conduct as sexual in nature.

It is a violation of University policy for any member of the University community to make an intentionally false accusation of sexual harassment. If any student believes that s/he is being sexually harassed, s/he should promptly contact the Title IX Coordinator.

If a violation at the University level is determined, the procedure will follow the one outlined in the Sexual Violence and Misconduct procedures for grievances and complaints.

## Sexual Assault Policy

Rivier University is a community of trust whose very existence depends on strict adherence to standards of conduct set by its members. Sexual assault is a serious, violent crime; when it occurs at the University, it is also a flagrant violation of these standards.

Sexual assault includes sexual intercourse, sexual contact, sodomy or object penetration of the anus or vagina or other body opening without the victim's consent. A person who is mentally or physically helpless cannot give consent. Intoxication or other mental or physical impairments may produce such a state of mental or physical helplessness. Sexual contact without the victim's consent includes, but is not limited to, any intentional touching by the accused, either directly or through the clothing, of the victim's genitals, breasts, thighs, or buttocks.

It also includes touching or fondling of the accused or a third party by the victim when the victim is forced to do so against his or her will.

Sodomy, object penetration, or sexual intercourse without consent (whether by acquaintance or stranger), is prohibited and is punishable under University policy by either contingent or permanent dismissal.

Acquaintance rape is rape occurring in a situation where the parties (victim and accused) know one another.

Acquaintance rape is a complex subject and is not well understood by both men and women. Without regard to the morality or values reflected in the behavior of both parties to this kind of tragedy, it is evident that in most cases each has accepted the attention of the other and, up to a point, trusted in the judgment and sensitivity of the other. Neither sees the other as an attacking or accusing stranger at the outset. This doesn't negate the severity of the act or prevent punishment/consequences under University policy.

If you are the victim of a sexual assault get help as soon as possible. Persons who are the victim of a sexual assault on campus may report the incident to the Department of Public Safety. Department of Public Safety personnel can also assist you in contacting the Nashua Police Department if you so desire. If the crime occurred off campus the Department of Public Safety personnel can also assist you in contacting the Nashua Police Department or other appropriate law enforcement agency. It is the victim's choice whether or not to talk to the police. A victim may also report the crime to another member of the Rivier University community such as, but not limited to, a Residence Life staff member or a member of the Counseling Center.

Victims of a sexual assault should seek medical attention because of the risk of sexually transmitted diseases, pregnancy, in order to determine the presence of a physical injury, and/or to obtain evidence to help in the investigation. This physical exam does not obligate the victim to prosecute either through the State or University judicial system; however, having the exam does leave all of the individual's options open. Choosing not to have the exam may greatly impact the possibility of the successful prosecution of the accused through the state court system at some future date.

Because of the serious nature of acts of sexual assault, the judicial process has been modified to insure that such cases are pursued with sensitivity as well as fairness. University regulations specifically prohibit the harassment, abuse, threat, or intimidation of any witnesses or party to an incident. As a matter of policy, the University informs the complainant in these cases their right to also pursue appropriate remedies in the state judicial system.

The options available to the complainant are as follows:

1. The complainant may choose to pursue the case through the legal system of the State of New Hampshire, but not through the University.
2. The complainant may choose to pursue the case through the University but not through the State Judicial System.
3. The complainant may choose to pursue the case judicially at both the State and University level.
4. The complainant may choose not to pursue the case at either the State or University level.

After investigating a report of sexual assault, the University may be obligated to pursue the case through the university policy and Title IX even if the complainant does not wish to pursue the case through the University level.

As stated above, the success in exercising any of these options in the future, particularly through the state court system, may be greatly impacted by the complainant's decision regarding whether to promptly have a medical exam after the event at issue.

Regardless of the way in which the complainant chooses to deal with the accused in the event of rape or sexual assault, the complainant will do well to select one of their options as quickly as possible. More successful outcomes are possible if the case is dealt with as soon as possible when the events and details that surround the incident are fresh in the minds of the individual(s) involved. So, whether the complainant chooses to pursue the case through the State or University avenues, or both, the sooner the complainant chooses a course of action the sooner and more successfully the parties involved can redress the situation.

If the complainant chooses to pursue through the University, the procedure will follow the one outlined in the Sexual Violence and Misconduct procedures for grievances and complaints.

NOTE: If the complainant identifies the accused, a representative of the Office of Student Affairs will be responsible for informing the accused about the charges against him/ her, provided the accused is a student. Both the complainant and the accused have a right to an advisor of their choosing. If a student prefers, a representative from the Office of Student Affairs will be chosen to serve as advisor. The disciplinary hearing procedures shall assure both the complainant and the accused have the same opportunities to have others present. Both the complainant and the accused shall be notified of the outcome of the proceeding and have the right to appeal the outcome. See Disciplinary Appeals section in Student Handbook. The complainant will be advised of his or her right to have academic and living situations changed upon request if reasonably available.

If the complainant is under the age of eighteen (18), his/her right to remain anonymous is affected by the law of the State of New Hampshire, which provides that information be shared with appropriate people to comply with the law. The University will do everything it can to respect the complainant's right to privacy and his/her right to choose the method of dealing with the situation that will be most comfortable for the complainant himself/herself.

Under no circumstances should any student accept responsibility for, or agree to be the sole provider of support to, the complainant over the long term. A student may provide support in concert with professional staff contact. If you are the victim of a sexual assault you may be feeling a number of strong emotions and/or experiencing various physical problems. Support services are available to you. Assistance and counseling for victims of sexual assault is available on campus at the Counseling Center. Other outside agencies are also available for assistance.

## Stalking Policy

The Higher Education Act of 1965 as amended by the Violence Against Women Reauthorization Act of 2013 defines "Stalking" as engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others; or suffer substantial emotional distress.

New Hampshire law states that it is against the law for someone to either: (a) engage in a course of conduct, even if recklessly done, which would cause a reasonable person to fear for their safety or the safety of another member of their immediate family and that person is placed in fear; or (b) to engage in a course of conduct targeted at a specific individual which the person knows will place that individual in fear for their safety or that of an immediate family member; or (c) violate the terms of a protective order and the prohibited statutory conduct after being served with the order. Instances which may be considered a "course of conduct" may include, but are not limited to, the following:

- To follow another person from place to place more than once with the intent to make the person afraid, or if this behavior would cause a reasonable person to be afraid or knowing it would make the person involved afraid;
- To appear more than once at or around a person's home, work, or other place where the person can be found, with the intent to make the person afraid, or if this behavior would cause a reasonable person to be afraid
- To intimidate another by causing substantial emotional distress and to threaten another person with death or bodily injury
- To follow someone from place to place even one time if the person following the other has a restraining order or bail order against him/her. A person with a restraining order or bail order against him/her also may not show up at or near any place described in the restraining order.

If you think you are being followed from place to place, or if you are being threatened or intimidated by someone, call the police and/or Public Safety right away. The police can arrest the person who is following, threatening, or intimidating you if the officer believes this happened within the past 12 hours. If there is already a protective order in place, the police must arrest him/her. The police can make an arrest even if they did not see the person follow, threaten, or intimidate you.

If a violation at the University level is determined, the procedure will follow the one outlined in the Sexual Violence and Misconduct procedures for grievances and complaints.

## Intimate Partner Violence Policy

Intimate partner violence (IPV), which can include sexual assault, dating violence, domestic violence and stalking are related events and can often occur in the same relationship. However, there are characteristics that are unique to each.

Rivier University is an educational community bound by common standards of conduct and a commitment to its educational mission. Intimate partner violence is considered particularly troubling because it interferes with the educational mission by:

- Endangering the physical and emotional safety of the community
- Damaging trust in the community
- Offending the dignity and violating the independence of community members
- Disrupting the academic progress of victims or survivors during the abusive relationship and during any subsequent attempt at recovery.

Intimate partner violence is defined as physical, emotional, or verbal abuse; forced isolation; threats; or intimidation occurring between current or former spouses or intimate partners, whether heterosexual or homosexual. Some common terms used to describe intimate partner violence include domestic violence, dating violence, battering, marital rape, date rape and stalking. Domestic violence, dating violence, stalking and intimate partner violence are terms that are used interchangeably. The common element in all abusive relationships is the abuser's need for power and control over his or her partner or former partner. Intimate partners are defined as:

- Current spouses (legal or common law)
- Current non-marital partners
- Dating partners (including partners on the first date)
- Boyfriends or girlfriends
- Same sex partners
- Divorced, former, or separated spouses (legal or common law)
- Former non-marital partners
- Former boyfriends or former girlfriends
- Former same-sex partners

Intimate partner violence can also be identified through the four main types of IPV:

- Physical Violence
  - The intentional use of physical force with the potential to cause injury or harm.
    - This includes, but is not limited to, scratching; pushing; throwing; grabbing; biting; choking; slapping; punching; use of a weapon; and use of restraints or one's body size against another person.
    - This also includes coercing other people to commit any of the above acts.
- Sexual Violence
  - Attempted or completed acts of sexual assault and sexual harassment
  - Pressured into unwanted sexual contact
  - Unwanted sexual experiences not of the physical nature that occur without the victim's consent
    - Examples include unwanted exposure to sexual situations (e.g., pornography), verbal sexual harassment, threats of sexual violence, and/or unwanted filming, taking or disseminating photographs of a sexual nature of another person
  - This form of IPV is also violates the sexual assault and sexual harassment policies found above.
    - Those policies can provide further definitions as needed.
- Stalking
  - A pattern of repeated, unwanted, attention and contact that causes fear or concern for one's own safety or the safety of someone else (e.g., family member or friend).
    - Examples include repeated, unwanted phone calls, emails, or texts; leaving letters, flowers, or other items when the victim does not want them; watching or following from a distance; damaging the victim's personal property; and making threats to physically harm the victim.
  - This form of IPV is also violates the Stalking policy found above.
    - That policy provide further definitions as needed.
- Psychological Aggression
  - The use of verbal and non-verbal communication with the intent to harm another person mentally or emotionally, and/or to exert control over another person
    - Examples include expressive aggression (e.g., name-calling, humiliating); coercive control (e.g., limiting access to transportation, friends, and family; excessive monitoring of whereabouts); threats of physical or sexual violence; exploitation of victim's vulnerability (e.g., immigration status, disability); exploitation of perpetrator's vulnerability; and presenting false information to the victim with the intent of making them doubt their own memory or perception (e.g., mind games).

As members of the University community, students are expected to comply with and abide by the University policies and guidelines, in addition to federal, state and local laws whether off campus or on-campus. The use of alcohol or other drugs in conjunction with an incident of relationship violence does not relieve accountability for the commission of these acts or diminish the seriousness of the offense and, in fact, may constitute a separate violation depending upon the particular situation. In order to provide for the needs and care of victims, as well as to enforce behavior standards critical to our mission, it is important that all violations of this policy are reported to the appropriate authorities, including the law enforcement officials with jurisdiction in the location of the incident.

### Reporting

Victims of relationship violence and abuse are encouraged to report the incident to the Department of Public Safety and to the appropriate law enforcement agency. University personnel should always encourage victims to report and fully disclose incidents of relationship violence and abuse to the police. If you choose not to report an incident of violence or abuse to law enforcement and you wish to obtain a protective order, the on-campus resources listed at the end of this policy can assist you in obtaining the protective order. If a protective order is obtained it is imperative that a copy of the protective order be immediately provided to the Department of Public Safety whether or not the defendant is a student of Rivier University. It is also imperative that if a protective order is obtained that the plaintiff immediately provide a copy of the protective order to the office of the Vice President for Student Affairs. Conditions set forth in the protective order may affect the living, dining and academic arrangements of the plaintiff, the defendant, or both. The office of the Vice President for Student Affairs will need to be involved in addressing the needs and cares of the victim and to assist in providing a safe and secure environment for the plaintiff.

A victim of relationship violence and abuse is also urged to contact the office of the Vice President for Student Affairs if the accused is currently out on bail due to the alleged violence and abuse or for violating the conditions of a protective order. This should be done whether the person out on bail is a student or non-student of Rivier University.

Members of the University community are strongly encouraged to report incidents of relationship violence and abuse given the potential harm to persons, violations of the University standards, and the need to provide a safe and secure environment. This policy is not intended to substitute or supersede related criminal and civil law. It is the policy of the University to strongly encourage victims to report all incidents and violations to the Department of Public Safety and the law enforcement agency with the appropriate jurisdiction and to make use of the services and rights to which they are entitled by law.

### Penalties

Failure to comply with New Hampshire state law or the policies of Rivier University by a preponderance of the evidence may result in a range of penalties including referral to a treatment program, loss of on-campus housing privileges, suspension, expulsion, and/or prosecution by the State of New Hampshire. Non-students who violate this policy may be banned from campus property and/or prosecuted by the State of New Hampshire.

The criminal definitions of Intimate Partner violence for the state of New Hampshire can be found at the following address.

- [www.gencourt.state.nh.us](http://www.gencourt.state.nh.us). State of New Hampshire, Revised Statutes Annotated

If a violation at the University level is determined, the procedure will follow the one outlined in the Sexual Violence and Misconduct procedures for grievances and complaints.

## Student Sexual Violence and Misconduct Policy- Procedures for Grievances or Complaints

### INTRODUCTION

#### Overview and Purpose

Sexual Misconduct, as defined by this Policy and Procedures for Complaints of Student Sexual Misconduct comprises a broad range of behavior that will not be tolerated in the University community of trust. Sexual Misconduct violates Federal civil rights law and may also be subject to criminal prosecution. The University is committed to fostering a community that promotes prompt reporting of Sexual Misconduct and timely and fair resolution of Sexual Misconduct complaints. Creating a safe and respectful environment is the responsibility of all members of the University community.

As a recipient of Federal funds, the University is required to comply with Title IX of the Higher Education Amendments of 1972, 20 U.S.C. § 1681 et seq. (“Title IX”), which prohibits discrimination on the basis of sex in education programs or activities. Sexual Misconduct, as defined in this Policy, is a form of sex discrimination prohibited by Title IX. Rivier University is committed to providing programs, activities and an educational environment free from sex discrimination.

Rivier University also must provide due process to students accused of Sexual Misconduct. This Policy is designed to provide due process while also ensuring a complainant’s protections under Title IX.

Sexual Misconduct is actual or attempted and may include:

- Sexual Harassment or abuse
- Sexual Assault: Non-Consensual Sexual Intercourse
- Sexual Assault: Non-Consensual Sexual Contact
- Sexual Exploitation
- Stalking
- Intimate Partner Violence

Rivier University is a community of trust whose very existence depends on strict adherence to standards of conduct set by its members. Sexual misconduct of any kind is inconsistent with the University’s values and incompatible with the safe, healthy environment that the Rivier community expects. The most egregious form of sexual misconduct is sexual assault, which is an affront to justice that will not be tolerated. Sexual assault is a serious, violent crime; when it occurs at the University, it is also a flagrant violation of these standards.

#### Definitions

- “Concurrent” means within the same calendar day.
- “Coercion” is the application of unreasonable pressure for sexual access.
- “Effective Consent” means words or actions that show an active, knowing and voluntary agreement to engage in mutually agreed-upon sexual activity. Effective Consent cannot be gained by force, by ignoring or acting without regard to the objections of another, or by taking advantage of the incapacitation of another, where the accused student knows or reasonably should have known of such Incapacitation. Effective Consent is also absent when the activity in question exceeds the scope of

- effective consent previously given. Also, silence, in and of itself, cannot convey consent. Furthermore, certain states have designated a minimum age under which a person cannot give “Effective Consent.”
- “FERPA” means the Family Educational Rights and Privacy Act, 20 U.S.C. Section 1232g; 34 C.F.R. Part 99.
  - “Force” means physical force, violence, threat, intimidation or coercion.
  - “Hearing Board” means a committee comprised of Rivier University faculty and staff trained to hear appeals, cases of sexual misconduct, and Title IX complaints.
  - “Hostile Environment” is a form of harassment. It is demonstrated by such severe and pervasive conduct that permeates the campus living and learning environment and interferes with a community member’s ability to perform. The more severe the conduct, the less need there is to show a repetitive series of incidents to prove a hostile environment, particularly if the harassment is physical. A single or isolated incident of sexual harassment may create a hostile environment if the incident is sufficiently severe – for example, a single instance of rape is sufficiently severe to create a hostile environment.
  - “Incapacitation” means the physical and/or mental inability to make informed, rational judgments. States of Incapacitation include, without limitation, sleep, blackouts, and flashbacks. Where alcohol is involved, incapacitation is a state beyond drunkenness or intoxication, and is defined with respect to how the alcohol consumed impacts a person’s decision-making capacity, awareness of consequences, and ability to make fully informed judgments.
  - “Non-Consensual Sexual Contact” means Sexual Contact that occurs without Effective Consent. Silence, in and of itself, cannot convey consent.
  - “Non-Consensual Sexual Intercourse” means Sexual Intercourse that occurs without Effective Consent. Silence, in and of itself, cannot convey consent.
  - “Sexual Contact” means the deliberate touching of a person’s intimate parts (including genitalia, groin, breast or buttocks, or clothing covering any of those areas), or using force to cause a person to touch his or her own or another person’s intimate parts.
  - “Sexual Exploitation” means taking sexual advantage of another person without Effective Consent, and includes, without limitation, causing or attempting to cause the incapacitation of another person; causing the prostitution of another person; electronically recording, photographing, or transmitting intimate or sexual utterances, sounds or images of another person; allowing third parties to observe sexual acts; engaging in voyeurism; distributing intimate or sexual information about another person; and/or knowingly transmitting a sexually transmitted infection, including HIV, to another person.
  - “Sexual Harassment” means conduct, including physical contact, advances, and comments in person and/or via phone, text message, email, or other electronic medium, that is (1) unwelcome; (2) based on sex or gender stereotypes; and (3) is so severe, pervasive and objectively offensive that it unreasonably interferes with a person’s academic performance or equal opportunity to participate in or benefit from University programs or activities. Sexual Harassment may include, if severe, pervasive and objectively offensive, unwelcome efforts to develop a romantic or sexual relationship; persistent and unwelcome commentary about an individual’s body or sexual activities; threatening to engage in the commission of an unwelcome sexual act with another person; stalking or cyber stalking; and engaging in indecent exposure. Title IX and this policy prohibit gender-based harassment, which may include acts of verbal, nonverbal, or physical aggression, intimidation, or hostility based on sex or sex-stereotyping, even if those acts do not involve conduct of a sexual nature.
  - “Sexual Intercourse” means penetration (anal, oral or vaginal) by a penis, tongue, finger, or an inanimate object.
  - “Sexual Misconduct” is a broad term encompassing “Sexual Exploitation,” “Sexual Harassment,” “Non-Consensual Sexual Contact,” “Non-Consensual Sexual Intercourse,” “Stalking,” and “Intimate Partner Violence” as defined in this Policy. Sexual Misconduct can occur between strangers or acquaintances, including people involved in an intimate or sexual relationship. Sexual Misconduct can be committed by men or by women, and it can occur between people of the same or different sex.
  - “Timely Warnings” means that Rivier University provides notification to the university community when a significant criminal incident occurs on campus or in an area surrounding campus that represents a continuing public safety threat.
  - “University Code of Conduct” means the University standards of conduct as enforced by the Vice President for Student Affairs or designee.
  - “University” means Rivier University.
  - “AVP” means the Assistant Vice President for Student Affairs
  - “VP” means the Vice President for Student Affairs and his or her designee.
  - “VP’s Office” means the Office of the Vice President for Student Affairs.

## II. JURISDICTION; TIMING; RETALIATION AND RELATED MISCONDUCT; CRIMINAL PROCEEDINGS

### Jurisdiction

#### Personal Jurisdiction

Any person may file a complaint of Sexual Misconduct against a “University student” under this policy. For purposes of determining personal jurisdiction, “University student” means any student who is registered or enrolled at the University (a) at the time of the alleged Sexual Misconduct (including Sexual Misconduct that is alleged to have occurred during any academic recess, provided that

there is an expectation of such student's continued enrollment at the University), and (b) at the time that the formal complaint against such student is prepared and delivered to the VP's Designee.

#### Geographic Jurisdiction

This Policy applies to any allegation of Sexual Misconduct against a University student, regardless of where the alleged Sexual Misconduct occurred. Although there is no geographical limitation to invoking this Policy, Sexual Misconduct that is alleged to have occurred at a significant distance from the University may be more difficult to investigate.

#### **Timing of Complaints and Availability of Procedures**

So long as the accused is a student at Rivier University, there is no time limit to invoking the Policy in complaints of alleged Sexual Misconduct. Nevertheless, students are encouraged to report alleged Sexual Misconduct immediately in order to maximize the University's ability to obtain information, and conduct a thorough, impartial and reliable investigation.

Where the accused student is a degree candidate, it is the responsibility of the complainant to file a complaint in a timely manner so that the accused is still a student at Rivier University. In no circumstances will the University allow an impending graduation to compromise its resolution processes. The conferral of a degree may therefore be held, if necessary, until proper resolution of any Sexual Misconduct charges, provided that a hearing opportunity will be scheduled for the earliest practicable date that can accommodate the parties and their witnesses.

#### **Retaliation**

It is a violation of University policy to retaliate against any person making a complaint of Sexual Misconduct or against any person cooperating in the investigation of (including testifying as a witness to) any allegation of Sexual Misconduct. For these purposes, "retaliation" includes intimidation, threats and other adverse action against any such complainant or third party. Retaliation should be reported promptly to the person designated by the VP to conduct the investigation and may result in disciplinary action independent of the sanction or interim measures imposed in response to the underlying allegations of Sexual Misconduct.

#### **Other Related Misconduct**

The Hearing Board is empowered to hear allegations of Sexual Misconduct and any violations of the University Code of Conduct directly related to the alleged Sexual Misconduct or any alleged violations of this Policy. The VP or designee is empowered to impose sanctions for Sexual Misconduct and any violations of the University Code of Conduct. Such related misconduct may include, without limitation, violations of the rules of privacy as articulated herein and/or violations of other standards of conduct that occurred in the course of the alleged Sexual Misconduct. This Policy also covers misconduct which may be construed as Sexual Misconduct and as such may be a violation of the Domestic Violence Policy, the Dating Violence Policy, the Stalking Policy and the Bullying Policy.

While the University does not condone underage drinking or violation of other University policies, it considers reporting assaults to be of paramount importance, and will therefore extend limited immunity to students who have been sexually assaulted to foster reporting and adjudication of sexual assaults on campus.

University students who appear before any University Official or a Hearing Board, whether as parties to the proceedings or as witnesses, are expected to provide truthful testimony in accordance with the University's Code of Conduct.

#### **Effect of Criminal Proceedings**

Because Sexual Misconduct may constitute both a violation of University policy and criminal activity, the University encourages students to report alleged Sexual Misconduct promptly to local law enforcement agencies. Criminal investigations may be useful in the gathering of relevant evidence, particularly forensic evidence. Because the standards for finding a violation of criminal law are different from the standards for finding a violation of this policy, criminal investigations or reports are not determinative of whether Sexual Misconduct, for purposes of this policy, has occurred. In other words, conduct may constitute Sexual Misconduct under this policy even if law enforcement agencies lack sufficient evidence of a crime and therefore decline to prosecute. In such cases, the complainant may initially be unfamiliar with the results of the criminal investigation, the nature of criminal procedure, or the grounds for the law enforcement decision not to prosecute. The complainant in such cases may request that a designee of the VP's Office assist the complainant in seeking and attending a meeting with the local prosecutor to gain an understanding of the decision to decline a prosecution.

The filing of a complaint of Sexual Misconduct under this policy is independent of any criminal investigation or proceeding, and (except that the University's investigation may be delayed temporarily if criminal investigators are gathering evidence) the University will not wait for the conclusion of any criminal investigation or proceedings to commence its own investigation and take interim measures to protect the complainant and the University community, if necessary.

### **III. THE PROCESS: INITIAL STEPS**

#### **Meeting with Complainant**

Upon receipt notice of any allegation of Sexual Misconduct, the Title IX Coordinator or their designee will first schedule an individual meeting with the complainant in order to provide to the complainant a general understanding of this policy and to identify

forms of support or immediate interventions available to the complainant (e.g., referrals to appropriate law enforcement agencies; referrals for medical treatment, etc.)

- Rivier University Department of Public Safety – (603) 888-1666
- Nashua Police Department – (603) 594-3500 or 911
- Southern New Hampshire Medical Center - (603) 577-2000
- St. Joseph’s Hospital & Trauma Center – (603) 882-3000
- Bridges, a local domestic and sexual violence support organization – (603) 883-3044
- Rivier University Counseling and Wellness Center – (603) 897-8251
- NH Victims’ Assistance Commission – 1 (800) 300-4500 or (603) 271-1284
- NH Governor’s Commission on Domestic Violence and Sexual Assault- (603) 271-3658 Hillsborough County South Victim Witness Program – (603) 594-3256
- National Sexual Assault Telephone Hotline 800-656- 4673

Victims of a sexual assault should seek medical attention because of the risk of sexually transmitted diseases, pregnancy, in order to determine the presence of a physical injury, and/or to obtain evidence to help in the investigation. This physical exam does not obligate the victim to prosecute either through the State or University conduct system. Having the exam, however, does leave all of the individual’s options open. Choosing not to have the exam, however, may greatly impact the possibility of the successful prosecution of the accused student through the state court system at some future date.

Counselors at a variety of agencies both on- and off-campus can help a person decide what steps to take, such as seeking medical attention, preserving evidence, obtaining counseling, and reporting to authorities. Information, support and advice are available for anyone who wishes to discuss issues related to sexual assault, whether or not a sexual assault has actually occurred, and whether or not the person seeking information has been assaulted, has been accused of a sexual assault, or is a third party.

The meeting may also involve a discussion of any accommodations that may be appropriate concerning the complainant’s academic, University housing, and/or University employment arrangements.

### **Complainant Wishes to Pursue Formal or Informal Resolution**

At the initial meeting with the complainant, the Title IX Coordinator or their designee will seek to determine how the complainant wishes to proceed, i.e., whether the complainant wishes to pursue Formal Resolution or an Informal Resolution. All complaints of sexual assault require a Formal Resolution. Under no circumstances will a complaint of sexual violence be pursued with an Informal Resolution. If the complainant wishes to proceed with either Formal or Informal Resolution, the Title IX Coordinator’s Designee will determine the name of the accused student, and the date, location and nature of the alleged sexual misconduct. The Title IX Coordinator’s Designee will conduct a preliminary investigation to assess the validity of the complaint. If the preliminary investigation appears to uphold the validity of the complaint, an individual meeting with the accused student will be scheduled in order to provide a general understanding of this Policy and to identify forms of support or immediate interventions available to him or her, as described above.

If the complainant wishes to proceed with Formal Resolution, a formal complaint will be sent to the Title IX Coordinator’s Designee for investigation. The formal complaint will set forth the name of the accused student, and the date, location and nature of the alleged Sexual Misconduct. Concurrent with the delivery of the formal complaint to the Title IX Coordinator or their designee, the Registrar will place an administrative hold to on the student’s account pending final resolution of the complaint.

If the complainant wishes to proceed with an Informal Resolution the procedure described in Section V of this policy shall be followed.

### **Complainant Requests Privacy**

If the complainant does not wish to pursue Formal or Informal Resolution and/or requests that his or her complaint remain private, Title IX nevertheless requires the University to investigate and take reasonable action in response to the complainant’s request. The VP or Designee will inform the complainant, however, that the University’s ability to respond may be limited. In such cases, Title IX requires the University to evaluate the complainant’s request(s) for no action in the context of the University’s commitment to provide a reasonably safe and non-discriminatory environment for all students. In order to make such an evaluation, the VP’s Designee may conduct a preliminary investigation into the alleged Sexual Misconduct and may weigh the complainant’s request(s) against the following factors: (a) the seriousness of the alleged Sexual Misconduct; (b) whether there have been other complaints of Sexual Misconduct against the same accused student; (c) how much evidence is available and can be shared under FERPA without the involvement of the complainant. The VP’s Designee will inform the complainant if the University cannot ensure privacy. Even if the University cannot take disciplinary action against the accused student because the complainant insists on privacy or that the complaint not be resolved, Title IX nonetheless requires the University to take prompt and effective action to limit the effects of the alleged Sexual Misconduct and to prevent its recurrence. The AVP or designee reserves the authority to issue a “no-contact” order and other interim measures.

### **Interim Measures**

In all complaints of alleged Sexual Misconduct, regardless of whether the complainant wishes to pursue Formal Resolution or Informal Resolution the University will undertake an appropriate inquiry and take immediate action to support and protect the complainant, including taking appropriate interim steps before the final outcome of the investigation and hearing, if any. Accordingly, at or after an initial meeting, the AVP or designee may impose a “no-contact” order, which typically will include (a) a directive that the accused student shall have no contact with the complainant, (b) directly or through proxies, (c) whether in person or (d) via electronic means, pending the investigation and, if applicable, the hearing. The VP, as Title IX Coordinator, also may take any further protective action that he or she deems appropriate concerning the interaction of the parties pending the hearing, which may include (a) directing appropriate University officials to alter the students’ academic, (b) University housing, and/or (c) University employment arrangements, or (d) other appropriate protections. Title IX requires that, when taking such steps to separate the complainant and the accused student, a school must minimize the burden on the complainant and thus should not, as a matter of course, remove the complainant from his or her classes or housing while allowing the accused student to remain. Both the complainant and the accused student have the right of access to campus counseling resources. Violation(s) of the directive and/or protective actions will constitute related offenses that may lead to additional disciplinary action. These actions may include (a) loss of on-campus housing privileges, (b) suspension or (c) expulsion from the University.

## **IV. FORMAL RESOLUTION**

A complainant may elect to pursue a formal resolution, which typically includes a hearing before a Hearing Board consisting of three University employees who are independent of the complaint and the investigation and are members of the University Appeals Board. Such a hearing is also referred to as “Formal Resolution.”

### **Investigation**

When the complainant indicates a desire to pursue Formal Resolution, the complaint will be prepared and the complaint forwarded to the VP’s Office for an investigation by such person or persons (the “Designee”) designated by the VP. Typically this investigation would be done by a person trained and experienced in handling complaints of sexual harassment and sexual violence, and in the University’s grievance procedure. Other Student Affairs officials also could conduct this investigation. As part of the investigation the complainant, the accused student, any witnesses and any other persons with knowledge are interviewed. Other investigative tools are also used such as video security, door lock memory, etc. but not limited to these tools. A typical investigation will be completed within sixty (60) days, if not sooner. The Designee will prepare a written report which will be provided to the AVP or designee.

### **Granting/Denying a Hearing**

The AVP or designee will determine that a hearing should be granted if, after viewing the facts in the light most favorable to the complainant (i.e., assuming, for the purpose of this determination only, that all of the complainant’s allegations are true), the alleged conduct constituted Sexual Misconduct. If the AVP or designee determines that a hearing should be granted, notice of that determination will be delivered, concurrently, to both parties and to the VP. The AVP or designee may specify which alleged violations of the Sexual Misconduct policy (i.e., which type or types of Sexual Misconduct) and, if applicable, which alleged violations of other, related misconduct will go forward for a hearing. A complainant whose request for a hearing is denied may appeal that decision to the VP or designee, whose decision will be final.

### **Notice of Hearing**

If the investigator finds that a hearing should occur the AVP or designee (or by the VP or designee, on appeal) will commence the Formal Resolution process by providing written notice to both parties (the “Notice of Hearing”) stating: (1) the date, time, and place of the pre-hearing meeting at which preliminary matters will be discussed.

### **Delivery of Notice of Hearing**

The Notice of Hearing will be delivered, at the AVP’s discretion, by email or in person, and will be considered effective immediately upon delivery. The hearing will take place no later than 8 business days, if reasonable, following delivery of the Notice of Hearing. The parties are expected to cooperate in the scheduling of the hearing. If either party fails to appear at the scheduled hearing, the Hearing Board may postpone the proceedings or proceed with the hearing and determine the complaint on the basis of the evidence available, provided the absent party was duly notified of the scheduled hearing date, as outlined above.

### **Advisors to the Parties**

Both the complainant and the accused student may have advisors present to support and assist them during the pre-hearing, hearing, and appeal stages of the Formal Resolution process. A student may select and arrange for an advisor of his or her choosing, including another student. The AVP or designee may disallow a particular advisor in cases where such advisor might be a witness or where such advisor's presence, in the AVP's or designee's sole determination, would be obstructive to the process or for other good cause.

An advisor may not direct questions to the Hearing Board, designee or witnesses at the hearing, but may suggest questions in writing to the Hearing Board and may consult with the student that he or she is assisting. The Hearing Board will not allow an advisor's presence to inhibit the parties' open sharing of information or the conduct of the hearing.

### **Privacy of the Hearing Process**

In order to comply with FERPA and to provide an orderly process for the presentation and consideration of relevant information without undue intimidation or pressure, the hearing process is not open to the general public. Accordingly, documents prepared in anticipation of the hearing (including the Designee's investigation report, the Notice of Hearing, and the pre-hearing submissions), testimony, or other information introduced at the hearing may not be disclosed outside of the hearing proceedings, except as may be required or authorized by law and/or University policy. Additionally, the complainant and respondent may learn private information protected by FERPA over the course of the hearing process about one another. It is both the complainant and respondent's responsibility to restrict the sharing of that information to individuals who need to know that information (i.e., an advisor for the case) only.

### **Hearing Procedures:**

#### **Pre-Hearing Submissions**

The parties will provide the AVP or designee with a list of witnesses they wish the University to call, and copies of documents and a description of any other information they propose to present at the hearing, on or before a date set by the AVP or designee, but at least two business days prior to the hearing. The AVP or designee will provide each party with a copy of the list of witnesses, and identification or copies of documents or other information submitted by each party, at minimum, 24 hours prior to the hearing. In the absence of good cause, as determined by the AVP or designee, in his or her sole discretion, the parties may not introduce witnesses, documents, or other information at the hearing that were not provided to the AVP or designee by this deadline. The University is responsible for notifying the complainant and the accused of the date and time of the pre-hearing submissions.

If, at any time prior to the hearing, after reviewing the Designee's investigation report and the complainant's list of witnesses and other evidence, the accused student elects to acknowledge his or her actions and take responsibility for the alleged Sexual Misconduct, he or she may request that the AVP or designee propose a resolution to the charges and a sanction and, with the consent of the complainant, resolve the complaint without a hearing. If the student chooses this option and takes responsibility for the alleged sexual misconduct, he or she waives the option for a hearing and must accept any consequences and sanctions determined by the University.

#### **Pre-Hearing Meeting and Determination of Charges and Witnesses**

The AVP or designee will schedule a pre-hearing meeting prior to the hearing date. At the meeting, the AVP or designee will review hearing procedures with the parties, separately or jointly, at the discretion of the AVP or designee. The AVP or designee will also review the complaint of alleged Sexual Misconduct (and related misconduct, if applicable), and review the parties' respective lists of proposed witnesses to assist them in eliminating redundant information.

Past sexual history and sexual character information will not be permitted at the hearing. The University reserves the right, through the AVP or designee (a) to add to or modify the alleged violations specified by the AVP's Designee at the prehearing meeting, and (b) to add witnesses to the witness lists at the pre-hearing meeting and/or at the hearing. The AVP's Designee will not testify at the hearing unless the AVP determines that the Designee's testimony is necessary to a fair resolution of the complaint.

#### **Conduct of the Hearing**

As a non-adversarial process, the hearing will not follow a courtroom model, and formal rules of evidence will not be observed. The Hearing Board will determine the order of the witnesses and resolve any questions of procedure arising during the hearing. The University will have notified all necessary witnesses to be present, to be available, or to have provided written statements in lieu of attending the hearing. This may be done as necessary to accommodate a witness who cannot be present, or whom the AVP or designee determines may remain anonymous. The Hearing Board will review in advance of the hearing all the written materials provided. The parties will have received or been provided the opportunity to review and copy these materials during earlier stages of the pre-hearing process. The parties will be expected not to repeat undisputed details or non-material circumstances that would merely duplicate the written materials. Only the Hearing Board may question the individual parties and any witnesses. Either party or their advisors may ask the Hearing Board to pose additional questions or inquire further into specific matters either by submitting these requests in writing or orally, at the discretion of the Hearing Board. If necessary, a brief break may be granted to allow both parties an opportunity to prepare and submit such requests. The Hearing Board is empowered to disallow or reframe any questions that are irrelevant or redundant. If the Hearing Board determines that unresolved issues exist that would be clarified by the presentation of additional information, the Hearing Board may suspend the hearing and reconvene it in a timely manner to receive such information. A delay will not be based on the failure of witnesses to appear without good cause or on the proposed introduction of documents or other information that should have been presented at the pre-hearing meeting.

In both formal and informal disciplinary matters, The University expects students to be cooperative, responsive, and honest. Withholding information, deception, and/or badgering of others to do the same will be regarded as a major infraction of University policy.

### **Testimony or Participation by the Accused Student**

The accused student has the option not to testify; however, the exercise of that option will not preclude the Hearing Board from proceeding and determining the complaint on the basis of the information available. In addition, if the accused student fails to appear at the hearing, after being duly notified of its place and time, the Hearing Board may postpone the proceedings or and determine the complaint on the basis of the information available.

### **Standard of Proof**

The Department of Education's Office of Civil Rights has interpreted Title IX to require schools to evaluate evidence of alleged Sexual Misconduct under a "preponderance of the evidence" standard and that is the standard adopted by this Policy. A preponderance of the evidence means that information shows it is "more likely than not" that the accused student violated this policy. In the context of a hearing hereunder, the accused student will be found to be responsible for the alleged Sexual Misconduct if the Hearing Board concludes that such Sexual Misconduct more likely than not occurred based upon careful review of all information presented.

Intoxication is not, as such, a defense. The accused student may, however, introduce information of intoxication whenever it is relevant to the hearing but it is not a defense for the Sexual Misconduct.

### **Impact Statement**

During the investigative process, the complainant and accused may present the AVP or designee with a written statement recommending a sanction (the "Impact Statement").

### **Sanction**

At the conclusion of the hearing, the chair of the Hearing Board will provide the AVP or designee the outcome of the case and the recommended sanctions. The Hearing Board is required to consider suspending or expelling any student found responsible for Sexual Misconduct; however, the Hearing Board may impose any sanction that it finds to be fair and proportionate to the violation. In determining an appropriate sanction, the Hearing Board may consider any record of past violations of the Standards of Conduct, as well as the nature and severity of such past violation(s). The Hearing Board will consider as part of the deliberations whether the accused student poses a continuing risk to the complainant and/or the University community. Any sanction imposed will be explained or supported in the written decision of the Hearing Board. The sanction imposed will take into consideration that the sanction will bring an end to the discriminatory conduct. The sanction will act to reasonably prevent its reoccurrence and the sanction will remedy the effects on the victim.

The more severe the conduct, the less need there is to show a repetitive series of incidents to prove a hostile environment, particularly if the harassment is physical. Indeed, a single or isolated incident of sexual harassment may create a hostile environment if the incident is sufficiently severe – for example, a single instance of rape is sufficiently severe to create a hostile environment.

### **Decision**

Within 48 business hours from the conclusion of the hearing (or such longer time as the AVP or designee may for good cause determine), the AVP or designee will provide to both parties, concurrently, a copy of the written decision.

### **Determination Letter**

Following the hearing, the AVP or designee will issue a determination letter to the accused student and the complainant. The determination letter will contain only the following information: the name of the accused student; whether the accused student has been found responsible or not responsible for specific violation(s) of the Sexual Misconduct policy; and the sanction imposed, if any. As guaranteed by Federal law, both the accused student and the complainant have a right to this information. University policy neither encourages nor discourages further disclosure of the determination letter by either student.

## Appeals

Either party may appeal the Hearing Board's decision in writing within three (3) business days of the date of the decision. The appeal must be submitted to the VP or designee. Appeals must be based upon the following grounds: (1) the evidence was insufficient to warrant the actions, (2) new evidence is now available that was not available at the time of the decision, (3) procedural error(s) took place and due process was not followed or (4) the severity of the sanction(s) assessed is not appropriate for the violation(s). Appeal outcomes may include

(1) upholding the decision, (2) lessening the sanction(s), (3) increasing the sanction, or (4) modifying the sanction. The decision of the Appeal's Officer is final.

## Effective Date of Sanction

If advisable, to protect the welfare of the complainant or the University community, the AVP or designee may include in the determination letter that any probation, interim suspension, suspension, or expulsion be effective immediately and continue in effect until such time as the AVP or designee may otherwise determine. The AVP or designee may suspend the determination pending exhaustion of appeal, or allow the student to attend classes or other activity on a supervised or monitored basis, or make such other modifications to the determination as may be advisable. The AVP's decision may not be appealed.

## Transcript Notation in Complaints of Suspension or Expulsion

If the AVP or designee imposes a sanction of suspension or expulsion, then, following exhaustion of any appeals, the VP will notify the University Registrar to place a notation on the student's transcript reading "Disciplinary Suspension" or "Disciplinary Expulsion," as the case may be.

## V. INFORMAL RESOLUTION

In all cases, except sexual assault, a student who wishes to file a complaint, but who does not wish to pursue Formal Resolution, may request "Informal Resolution," as described in this Section. Informal Resolution is an appropriate resolution process; it is not mediation. Informal Resolution will NOT be used to resolve sexual assault complaints. The accused student is expected to attend, but is not required to participate. The AVP or their designee will notify both parties of the informal resolution process being selected and the date, time, and location of the informal resolution meeting.

### Purpose of Informal Resolution

Informal Resolution provides an opportunity for the complainant to confront the accused student, in the presence of, and facilitated by, a presiding officer and to communicate his or her feelings and perceptions regarding the incident, the impact of the incident, and his or her wishes and expectations regarding protection in the future. The accused student will have an opportunity to respond.

### Advisors; Presiding Officer

The complainant and the accused student each may bring an advisor to the Informal Resolution. Advisors are subject to the same restrictions set forth for advisors in Formal Resolution, outlined above. The AVP or a designee will preside over the Informal Resolution.

### Outcome of Informal Resolution

If in the course of the informal resolution the accused student admits to violating the sexual misconduct policy, that admission will serve as a finding of responsibility that is final and cannot be appealed. The AVP or designee will recommend a sanction which the accused student can accept or reject. If accepted, the process is concluded. If the accused student rejects the sanction recommended by the AVP or designee, a Formal Resolution hearing is convened on the issue of sanction, only. Procedures for Formal Resolution are followed with respect only to the imposition of an appropriate sanction.

Where responsibility is contested by the accused student, Informal Resolution may, nonetheless, result in the imposition of protective actions agreed upon by the parties, or (with or without such agreement) based on information derived from the proceedings, taken together with any other relevant information known to the University at the time of the Informal Resolution.

At the conclusion of the informal resolution process, the AVP or their designee will send a letter to both parties detailing the results from the informal resolution and formally close the case.

### Election of Formal Resolution

The University or the complainant may, at any time, elect to end such proceedings and initiate Formal Resolution instead. Statements or disclosures made by the parties in the course of the Informal Resolution may be considered in the Formal Resolution. This transfer to the formal process must occur prior to the conclusion of the informal process.

### Privacy of Informal Resolution

In order to promote honest, direct communication, information disclosed during Informal Resolution must remain private while the Informal Resolution is pending, except where disclosure may be required by law or authorized in connection with duties on behalf of the University.

## Policy of Religious Groups on Campus

As a Catholic institution, Rivier University celebrates the rich diversity of the world’s religious traditions and supports spiritual growth and religious practices among all of our students, staff, and faculty. However, certain religious groups have teachings or practices that are inconsistent with the mission of Rivier University. Therefore, *any religious groups or organizations (Catholic included) that want to meet, organize, or proselytize on campus must obtain prior approval from the Director of Campus Ministry.*

- Religious leaders or mentors are welcomed to speak, lead, or be part of religious groups on campus only with an invitation from Campus Ministry.
- Student-led initiatives for prayer or spiritual discussion groups are welcomed and encouraged, but may not be advertised on campus until approved by the Director of Campus Ministry.
- Religious groups that, in the judgment of the University, use cult-like tactics to urge others into affiliating with their cause are not allowed to meet, organize, or proselytize at Rivier University. Examples of such behaviors include: a call for strict obedience to mentors or leaders; mandatory tithing; deceptive recruitment; religious harassment; threats of punishment; pressure to cut ties with family and friends; or manipulation of the Bible to support the group’s goals. Any questions regarding this policy should be directed to the Director of Campus Ministry.

## Skateboard Policy

Skateboards, hover boards, roller skates, in-line skates and non-motorized scooters may be used as a form of point-to-point transportation on sidewalks and in parking lots on campus. It is a violation of this policy to use skateboards, hover boards, roller skates, in-line skates and non-motorized scooters in any and all other areas on campus including, but not limited to, the following areas:

- All steps and handrails
- All flower planters
- All brick patios
- All retaining walls
- All curbs and benches
- The inside of all buildings
- The storage of hover boards in any campus building is prohibited

It shall also be a violation of this policy for any operator of a skateboard, hover board, roller skates, in-line skates or non-motorized scooter to engage in any trick riding anywhere on campus, including on sidewalks and in parking lots. Trick riding means any type of movement where the wheels of the skateboard, roller skates, in-line skates or non-motorized scooter are deliberately removed from contact with the surface. Skateboarders, roller skaters, in-line skaters and those operating non-motorized scooters must yield the right-of-way to pedestrians, bikes, cars, wheelchairs, and other non-pedestrians. Excessive speed or other reckless operation of a skateboard shall constitute a violation of this policy. Violations of this policy by students will be enforced in accordance with current University guidelines for Conduct Violations. Violations of this policy by visitors may result in the person being asked to leave the campus. Future violations or failure to leave the campus may result in either disciplinary action or criminal arrest, or both, depending upon the specific circumstances involved.

## Smoking Policy

Rivier University does not permit smoking in any of its buildings. Smoking is also prohibited in University-owned vehicles. The Rivier University Policy on Smoking also includes, but is not limited to, the use of electronic cigarettes or any other device which is designed to simulate smoking or the inhaling and exhaling of a tobacco product. Those who choose to smoke outside of buildings are required to place the remains of tobacco products in the proper receptacles. Those who choose to smoke outdoors are also asked to keep at least 20 feet from any building. Any issues should be brought to the attention of a Student Affairs staff member. Information on cessation programs offered in the greater Nashua area is available through the Counseling and Wellness Office.

## Solicitation Policy

Rivier University does not permit any type of solicitation, sales, or door-to-door canvassing without the permission of the Coordinator of Student Activities and Orientation. This applies to individuals, students and non-students, and campus or non-campus groups or organizations. Unauthorized solicitation should be promptly reported to Public Safety.

## Statement on Student Safety and Mandatory Referrals

Rivier University expects and encourages students to maintain a reasonable concern for their own self-welfare. In the event that the University receives a credible report of any student who makes an attempt, gesture, statement or act that suggests that they are suicidal or self-harming, the student will be required to attend up to four sessions with the Rivier University Counseling and Wellness Center for the purpose of a mandatory assessment. With regard to students' emotional health and well-being, any attempt, gesture, statement or act that results in the need for an emergency response may dictate the need for parental notification.

Rivier University may also require a mandatory assessment of up to four sessions with the University Counseling and Wellness Center for violations of University policy, for self-harming behavior such as substance abuse or for disruptive behavior, which is perceived as violent or threatening towards one's self and/or others. Such assessment as may be imposed shall be separate and apart from any disciplinary and/or criminal actions which may occur.

A student who is mandated an assessment may access these services at the Rivier University Counseling and Wellness Center; students may also choose to pursue the assessment with an approved off-campus provider. In either event, the student is responsible for their incurred costs, which will be greater through an off campus provider given that the services provided by the Counseling and Wellness Center itself are free of charge. The Counseling and Wellness Center can provide a list of approved area licensed clinicians. If an off-campus provider is used, documentation of the completed evaluation on a form acceptable to the University must be submitted directly to the Rivier University Director of the Counseling and Wellness Center from the approved off campus provider.

A student who is mandated an assessment must sign a "Limited Release of Information" form so that verification of participation in the mandated assessment sessions can be forwarded to the referring person. The referring person is notified only that the mandatory attendance requirement has been met. What is discussed within the sessions is not disclosed. All records associated with the mandated assessment are protected by federal and state laws regarding confidentiality. If the student completes the assessment, the

results of the assessment and the fact that an assessment was conducted are confidential and may not be disclosed without consent of the student and may not form the basis of a disciplinary proceeding or any other sanction imposed by the University. However, if the student fails to complete the assessment or requirements offered in conjunction with the assessment, this fact is not confidential, and the Director of Counseling may disclose that fact to the Assistant Vice President for Student Affairs (AVPSA).

Failure to complete the mandatory assessment or requirements offered in conjunction with the assessment may result in disciplinary sanctions, including suspension and/or withdrawal.

In the case of a mandatory assessment, the accuracy of the report which led to the referral to a mandatory assessment may be appealed to the AVPSA or designee at the close of the business day following the student's notification of the referral. In some instances, for the appeal to go forward, a student will be required to sign a release of information authorizing contact and interviewing of witnesses to the incident leading to the referral. A failure to timely provide such an authorization may void the appeal. Appeal outcomes may include (1) upholding the referral decision, (2) modifying the referral, or (3) reversing the referral decision. The AVPSA decision on the appeal is final.

## Use of the Name of Rivier University

Students, either individually or collectively, shall not, without the written consent of the proper authorities, use the name of Rivier University in any activity outside of the regular work of the school. Violation of this policy is regarded as sufficient cause for dismissal.
