MBA

Master of Business Administration in Information Technology Management (STEM)

Level up your business and technology skills

Take your career to the next level.

Rivier MBAs deliver real-world skills for personal and professional success.

Rivier's MBA in Information Technology Management (STEM) provides you with a broad education in business management disciplines as well as concentrated study in the practical management of information technology. Quantitative and qualitative coursework teaches you to identify and understand key information, and to evaluate and apply your knowledge to effect positive change within an organization.

Choose Rivier

On-campus and online course options provide greater flexibility for working students, and six 7-week terms annually offer a swift path to earning your degree. Additionally, Rivier's curriculum utilizes the most current open education resources in place of textbooks, significantly reducing the cost of your program.

Save with Open Educational Resources

Most instructors in Rivier's online MBA programs use Open Educational Resources (OER) in place of traditional textbooks. This means digital, openly licensed content is available free of charge to students. Featuring multimedia, interactive, and engaging course content, OER materials can save you an estimated \$1,500 over the length of your program.
