

# Master of Business Administration

## Quality education grounded in real-world skills

Rivier University's graduate business programs guide the development of knowledge and skills needed to take your career to the next level. Rivier's M.B.A. programs develop well-rounded professionals who understand finance, economics, marketing, quality control, ethics, organizational behavior, and strategic decision-making. Our M.B.A. graduates learn skills for the effective management of people, projects and programs.

Rivier's small classes mean that faculty know you and understand your goals. They'll serve as mentors to help you succeed academically and advance professionally.

## Facilities and Resources

Learn from distinguished faculty with leadership experience in a variety of industries. Rivier MBA graduates are employed by major corporations, healthcare providers, and nonprofits including Fidelity Investments, Hewlett-Packard, BAE Systems, Catholic Medical Center, Anthem BlueCross BlueShield, and National Grid.

Online and on-campus courses fit a variety of schedules. Courses are offered in 7-week terms. There are a total of six 7-week terms per year.

The McLean Center for Finance & Economics offers access to live world news headlines on a 40-inch LCD monitor, while an eight-foot ticker displays real-time financial market data from the New York Stock Exchange, NASDAQ, the Dow Jones Industrial Average and the S&P 500. The Center also includes a six-foot tracker with a customized data display.

## Degrees

## Business Administration

### Manjola Tatili Cronstrom '10 B.S./ '11 MBA

When Manjola Tatili Cronstrom '10 B.S./'11 MBA moved to the United States from Albania in 2001, she didn't speak English. Several years later, with a goal to work in international business, she enrolled at Rivier. After earning her B.S. degree in Business Administration in 2010, she immediately entered the MBA program and graduated the following year.

An internship at the United Nations provided credit toward her MBA and fulfilled a lifelong dream. During her six-month internship, Cronstrom gained experience in international business and laws, enjoyed invaluable networking opportunities and the chance to practice the languages she speaks—Albanian, English, Italian, and Spanish.

Manjola returned from her internship and landed a job as a Senior Analyst in Global Procurement with National Grid in Boston. She has since advanced to the position of Senior Process Manager in Supply Chain Management.

Cronstrom stays connected with the University as a member of the Business Program Advisory Board. She collaborates with faculty and successful business leaders to continuously improve Rivier business students' educational experience.
