

Rivier

UNIVERSITY

B.A.

Individualized Studies

Earn your degree in Individualized Studies

Learn foundational skills you can apply to a wide variety of careers.

Advance your education and customize your degree. The Individualized Studies program allows you to design a degree tailored to your interests.

Rivier's Individualized Studies program grants you the opportunity to study interest areas not available in established programs and to incorporate previous learning into a bachelor's degree. Working with an academic advisor, you can tailor a program of study to meet your professional and personal goals with either a broader, interdisciplinary concentration or one more narrowly defined.

Program of Study

The University will accept up to 90 transfer credits. The final 30 degree credits must be completed at Rivier. A transfer credit evaluation will be conducted once transcripts and other documentation are received.

You can earn credit for prior learning and certifications, challenge and CLEP exams, and military courses—all of which will be discussed and determined as part of the evaluation and advising process. Individual course plans are developed for each student once the evaluation process is complete.

Choose Rivier

In Rivier's Individualized Studies program, you'll develop the skills and knowledge to launch a career in a variety of industries. Courses are offered in 7-week and 14-week terms for added flexibility to accommodate your busy schedules and learning preferences.

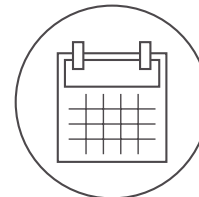

Course Format

100% online

Total Program Credits

120

Estimated Program Length

2 - 4 years

B.A.
