## UNIVERSITY

### B.S.

#### Public Health

## Become a public health hero

Transform your future and improve the lives of others.

Rivier's flexible, online public health program allows you to work while you earn your degree. You'll explore public health challenges and acquire the skills needed to address health-related issues in your community and beyond.

Through research, community outreach and education, and health policy advocacy, public health graduates work to improve the health and well-being of individuals, targeted populations, and communities. Covering a wide range of topics—from access to clean water to disease prevention—a degree in public health enables you to invest your time and effort into the causes of greatest meaning to you.

### Expand your career options

With your bachelor's degree, you can pursue leadership roles as a medical and health services manager, health and safety officer, occupational health specialist, emergency management director, health educator, community outreach worker, data collection analyst, and many other rewarding positions. The B.S. in Public Health also prepares students for graduate studies in biostatistics and informatics, epidemiology, environmental health, health and policy management, social and behavioral health.

### Choose Rivier

Rivier's B.S. in Public Health provides the knowledge and hands-on learning that build on your existing skill sets and confidence. Offered fully online, working students can benefit from a flexible learning environment, balancing the program with work and personal commitments. Six 7-week terms annually and a generous transfer credit policy offer a swift path to completing your degree.
