

Rivier

UNIVERSITY

B.A.

Mathematics

Prepare to reason and problem-solve by the numbers.

Why Study at Rivier?

Whether it's business, law, education, medicine, government, or academia, our B.A. in Mathematics will prepare you for the career of your choice.

Build Your Knowledge Base

Rivier's Mathematics program will help you develop the problem-solving, quantitative, and analytical skills that are critical for 21st-century employment and leadership. Advancements in science and technology, data capture, and modeling have increased the demand for math majors in nearly every industry.

Gain Real-World Experience

In addition to co-curricular experiences, you will have the opportunity to participate in internships and service-learning projects that will take you out of the classroom and into the world. You will gain real-world, resume-building experience, and begin to develop your professional network. Study abroad opportunities, clubs, and co-curricular events also offer learning and leadership experiences.

Begin Your Career

Mathematics graduates may pursue careers as:

- Mathematicians, actuaries, and statisticians
- Computer and systems analysts
- Math teachers and professors
- Financial planners and advisors

Advanced Degrees

Rivier offers a Mathematics/Computer Science 4+1 program, enabling you to earn a bachelor's and master's degree in five years. Additionally, you'll be well prepared for graduate studies in Rivier's M.A. in Teaching Mathematics.

Journeys of Transformation

Rivier University's core curriculum, titled Journeys of Transformation, aligns with the American Association of College & Universities essential learning outcomes. Coursework focuses on developing strong intellectual and practical skills for workforce success, and offers opportunities for service learning, servant leadership, and civic engagement to enhance leadership abilities.

Major Requirements

Mathematics Courses

MA 165 - Calculus I with Lab

MA 166 - Calculus II

MA 210 - Linear Algebra

MA 220 - Calculus III

MA 310 - Discrete Mathematics

MA 317 - Problem-Solving and Modeling

MA 320 - Classical Geometries

MA 330 - Mathematical Statistics

MA 420 - Abstract Algebra

MA 490 - Mathematics Research

or

MA 495 - Internship

CS 301 - Computer Science Fundamentals

Related Science Courses

PHY 111 - Physics I

PHY 111L - Physics Laboratory I

PHY 112 - Physics II

PHY 112L - Physics Laboratory II

Two Mathematics/Computer Science Electives

Choose two courses at the 200-level or above in Mathematics or Computer Science such as those listed below:

MA 295 - Early Internship in Mathematics

MA 495 - Internship

CS 308 - Computer Networks

CS 335 - Database Management Systems

General Electives

Students choose a minimum of ten 3-credit elective courses (30 credits) to reach the total number of credits required for the degree.

Innovative

Employment Promise Program

Rivier's Employment Promise Program enhances the career preparation and employability of students in all academic disciplines. The program includes mentorship through Rivier's Career Development Center and a specialized, four-year academic/professional development plan that incorporates experiences proven to increase overall employability and success in the job search process.

Confidence in the quality of a Rivier education enables the University to ensure invested students will secure employment within nine months of graduation. If not, the University will provide the student additional financial or educational support. Get more information at rivier.edu/epp.

You're Invited

Attend an on-campus event, or schedule an individual campus tour for you and your family. You can access a complete listing of events and register online at events.rivier.edu or call us at (603) 897-8507.

Academic Accreditation

Rivier University is accredited by the New England Commission of Higher Education (NECHE).
