Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students who entered the Program without having previously completed any related graduate coursework have been required to complete a minimum of 126 credits to earn their degree. For students who have taken some graduate coursework in a related field of study, there is no limit to the number of foundation (prerequisite Master's level) courses that can be counted toward eligibility for admission to the Program. However, only 9 credit hours of doctoral course work can be transferred into the Program. The number of credit hours of core doctoral coursework required to earn the PsyD degree is 78 plus 12 for the internship.
